

HEALTH BOARD RISK REGISTER June 2020

Aligning Risk with Swansea Bay University Health Board (SBUHB) Strategy

The Swansea Bay University Health Board (SBUHB) strategy is outlined in the figure below and all risks identified for inclusion on the Health Board Risk Register are mapped to our enabling objectives.

HEALTH BOARD RISK REGISTER DASHBOARD OF ASSESSED RISKS – June 2020

	5				51: Compliance with Nurse Staffing Levels (Wales) Act 2016	67: Target breeches to Radical
					 4: Infection Control 49: TAVI Service 63: Screening for Fetal Growth Assessment in line with Gap-Grow (G&G) 65: CTG Monitoring in Labour Wards 69: Adolescents being admitted to Adult MH wards 70: Data Centre outages 03: Workforce Recruitment of Medical and Dental Staff 58: Ophthalmology Clinic Capacity 	Radiotherapy Treatment 66: SACT Treatment 16: Access to Planned Care Services 50: Access to Cancer Services 68: Coronavirus Pandemic
Impact/Consequences	4				 01: Access to Unscheduled Care Service 45: Discharge information 48: Child & Adolescence Mental Health Services 37: Operational and strategic decisions are not data informed 57: Non-compliance with Home Office Controlled Drug Licensing requirements 61: Paediatric Dental GA Service - Parkway 43: DOLS Authorisation and Compliance with Legislation 	64: H&S Infrastructure 39: IMTP Statutory Responsibility 62: Sustainable Corporate Services 60: Cyber Security
<u>=</u>	3				 13: Environment of Health Board Premises 36: Electronic Patient Record 27: Sustainable Clinical Services for Digital Transformation 41: Fire Safety Regulation Compliance 52: Engagement & Impact Assessment Requirements 	15: Population Health Improvement 54: No Deal Brexit 53: Compliance with Welsh Language Standards

Risk Register Dashboard

Strategic Objective	Risk Reference	Description of risk identified	Initial Score	Current Score	Trend	Controls	Last Reviewed	Scrutiny Committee
Best Value Outcomes from High Quality Care	1 (738)	Access to Unscheduled Care Service Failure to comply with Tier 1 target for Unscheduled Care could impact on patient and family experience of care.	25	16	→	•	June 2020	Performance and Finance Committee
	4 (739)	Infection Control Failure to achieve infection control targets set by Welsh Government could impact on patient and family experience of care.	20	20	→	→	June 2020	Quality and Safety Committee
	13 (814)	Environment of HB Premises Failure to meet statutory health and safety requirements.	16	12	Ψ	•	June 2020	Health and Safety Committee
	64 (2159)	Health and Safety Infrastructure Insufficient resource and capacity of the health, safety and fire function to maintain legislative and regulatory compliance.	20	20	→	→	June 2020	Health and Safety Committee
	16 (840)	Access to Planned Care Failure to achieve compliance with waiting times, there is a risk that patients may come to harm. Also, financial risk not achieving targets.	16	25	↑	→	June 2020	Performance and Finance Committee
	37 (1217)	Information Led Decisions Operational and strategic decisions are not data informed.	16	16	→	→	June 2020	Audit Committee

39 (1297)	Approved IMTP – Statutory Compliance If the Health Board does not have an approved IMTP signed off by Welsh Government, primarily due to the inability to align performance and financial plans it will remain in escalation status, currently "targeted intervention".	16	20	↑	→	June 2020	Performance and Finance Committee
41 (1567)	Fire Safety Compliance Fire Safety notice received from the Fire Authority – MH&LD Unit. Uncertain position in regard to the appropriateness of the cladding applied to Singleton Hospital in particular (as a high rise block) in respect of its compliance.re safety regulations.	12	12	→	→	June 2020	Health and Safety Committee
43 (1514)	DoLS If the Health Board is unable to complete timely completion of DoLS Authorisation then the Health Board will be in breach of legislation and claims may be received in this respect. (Awaiting closure)	16	16	→	→	June 2020	Quality and Safety Committee
48 (1563)	CAMHS Failure to sustain Child and Adolescent Mental Health Services (CAHMS).	16	16	→	→	June 2020	Performance and Finance Committee
49 (922)	Trans-catheter Aortic Valve Implementation (TAVI) Failure to provide a sustainable service for Trans-catheter Aortic Valve Implementation (TAVI)	25	20	¥	•	June 2020	Quality and Safety Committee

	63 (1605)	Screening for Fetal Growth Assessment in line with Gap-Grow Due to the scanning capacity there are significant challenges in achieving this standard.	20	20)	→	June 2020	Quality and Safety Committee
	50 (1761)	Access to Cancer Services Failure to sustain services as currently configured to meet cancer targets could impact on patient and family experience of care.	20	25	→	↑	June 2020	Performance and Finance Committee
	57 (1799)	Controlled Drugs Non-compliance with Home Office Controlled Drug Licensing requirements.	20	16	y	→	June 2020	Audit Committee
	66 (1834)	Access to Cancer Services Delays in access to SACT treatment in Chemotherapy Day Unit	25	25	→	→	June 2020	Quality and Safety Committee
	67 (89)	Risk target breeches – Radiotherapy Clinical risk – Target breeches of radical radiotherapy treatment	16	25	→	→	June 2020	Quality and Safety Committee
	69 (1418)	Safeguarding Adolescents being admitted to adult MH wards	16	20	→	→	June 2020	Quality & Safety Committee
Excellent Staff	3 (843)	Workforce Recruitment Failure to recruit medical & dental staff	20	20	+	↑	June 2020	Workforce and OD Committee
	51 (1759)	Nurse Staffing (Wales) Act Risk of Non Compliance with the Nurse Staffing (Wales) Act	16	20	¥	↑	June 2020	Workforce and OD Committee

	62 (2023)	Sustainable Corporate Services Health Board's Annual Plan and organisational strategy, and with the skills, capability, behaviours and tools to successfully deliver in support of the whole organisation, and to do so in a way which respects and promotes the health and well-being of our staff and their work-life balance.	20	20	→	→	June 2020	Workforce and OD Committee
Digitally Enabled Care	27 (1035)	Sustained Clinical Services Inability to deliver sustainable clinical services due to lack of digital transformation.	16	12	4	→	June 2020	Audit Committee
	36 (1043)	Storage of Paper Records Failure to provide adequate storage facilities for paper records then this will impact on the availability of patient records at the point of care. Quality of the paper record may also be reduced if there is poor records management in some wards.	20	12	¥	→	June 2020	Audit Committee
	60 (2003)	Cyber Security – High level risk The level of cyber security incidents is at an unprecedented level and health is a known target.	20	20	→	→	June 2020	Audit Committee
	65 (329)	CTG Monitoring on Labour Wards Risk associated with misinterpreting abnormal CTG readings in delivery rooms.	20	20	→	→	June 2020	Quality & Safety Committee
	70 (2245)	National Data Centre Outages The failure of national systems causes severe disruption across NHS Wales, affecting Primary and secondary care services.	20	20	→	→	June 2020	Audit Committee

Partnerships for Improving Health and Wellbeing	58 (146)	Ophthalmology - Excellent Patient Outcomes There is a failure to provide adequate clinic capacity to support follow-up patients within the Ophthalmology specialty.	12	20	↑	→	June 2020	Quality and Safety Committee
	15 (737)	Population Health Targets Failure to achieve population health improvement targets leading to an increase in preventable disease amongst the population resulting in increased morbidity impacting on operational and financial pressures.	15	15	→	→	June 2020	Quality and Safety Committee
	68 (2299)	Pandemic Framework Risk of declared pandemic due to Coronavirus Infectious Disease outbreak 2020.	20	25)	↑	June 2020	Quality and Safety Committee
	61 (1587)	Paediatric Dental GA Service – Parkway Identify alternative arrangements to Parkway Clinic for the delivery of dental paediatric GA services on the Morriston Hospital SDU site consistent with the needs of the population and existing WG and Health Board policies.	15	16	*	→	June 2020	Quality and Safety Committee
Partnerships for Care	52 (1763)	Statutory Compliance The Health Board does not have sufficient resource in place to undertake engagement & impact assess in line with Statutory Duties	16	12	*	↑	June 2020	Performance & Finance Committee

53 (1762)	Welsh Language Standards Failure to fully comply with all the requirements of the Welsh Language Standards, as they apply to the University Health Board.	15	15	→	→	June 2020	Health Board (Welsh Language Group)
54 (1724)	Brexit Failure to maintain services as a result of the potential no deal Brexit	15	15	→	→	June 2020	Health Board (Emergency Preparedness Resilience and Response Group)

 Executive monitoring/support to achieve improvement plans on a weekly basis. 	The need to deliver sustained service.				
Current Risk Rating	Additional Comments				
4 x 4 = 16	Due to current measures related to COVID 19 including the cancelled all non-				
	urgent activity, Emergency Department and MIU attendance have reduced by				
	nearly 50%, red call performance is at 65% and 4hr handover for the last 3 weeks				
	has been in excess of 75%. Both Morriston and Singleton have been risk level 1				
	for the past 2 weeks. It is recognised that this is not likely to be maintained and				
	therefore remains a high risk. 23.4.20				

Datix ID Number: 739 **HBR Ref Number: 4** Health & Care Standard: 2.4 Infection Prevention & Control & Decontamination **Objective**: Best Value Outcomes from High Quality Care **Director Lead:** Gareth Howells, Director of Nursing and Patient Experience **Assuring Committee:** Quality and Safety Committee Risk: Failure to achieve infection control targets set by Welsh Government, increase risk to patients Date last reviewed: June 2020 and increased costs associated with length of stays. Risk Rating Rationale for current score: 30 Currently under targeted intervention for rates of infection, achievement of targets (consequence x 25 are variable with monthly fluctuations likelihood): 20 Initial: $4 \times 5 = 20$ 15 Current: $4 \times 5 = 20$ Target: $4 \times 3 = 12$ 10 **Level of Control** Rationale for target score: 5 = 40% Date added to the Once the infection control team is fully recruited to, ICNet is functioning to its full HB risk register capability the infection control team will be able to support the clinical areas more January 2016 and drive service improvements. In addition, a negative pressure isolation facility is being built into the new emergency department at Morriston hospital providing Target Score another facility to appropriately manage patients at the front door. Review and implementation of a robust clean of patient rooms following an infection will reduce the risk of cross infection. Mitigating actions (What more should we do?) Controls (What are we currently doing about the risk?) Action Regular monitoring on infection rates Deadline Lead Assist Dir Nursing Recruitment to ensure the team is fully 14th August Policies, procedures and guidelines in place established with the right skills and Infection Control 2020 Regular reporting through internal processes experience ICNet information management system for infections is in place Ongoing infection control team involvement in Senior Infection 14th August Infection control team support the clinical teams for issues relating to infection control site level estates projects to ensure Control Matron 2020 A permanent infection control doctor has been recruited appropriate isolation facilities are factored in Recruitment is ongoing and the decontamination lead and assistant director of nursing in infection from the outset control have been appointed HPV/UV cleaning post infection to be 14th **Assist Dir Nursing** Bug stop quality improvement programme implemented Infection Control August Incident reporting 2020 Gaps in assurance Assurances (How do we know if the things we are doing are having an impact?) (What additional assurances should we seek?) ICNet provides information linked with PAS relating to patients who have been Ongoing monitoring of infection control rates and feedback provided to delivery units inpatients since the connection was made therefore additional manual records are Infection Control Committee monitors infection rates and identifies key actions to drive maintained by the infection control team creating additional work and some improvement

Sub groups to the infection control committee such as the decontamination group provide the	duplication.
Current Risk Rating	Additional Comments
assurances and operationally drive key areas of work.	Additional Comments Significant progress to date however trajectory not met overall. Work underway on recruitment to IPC, a work plan to improve practice and improved information available for reporting, oversite and also investigation. 13/06/19 Continue to make progress against annual IMTP profiles, however, incidence within the Health Board remains above that for the NHS in Wales. Recruitment to Matron IPC post on 03/06/19. Work in progress to improve incident reporting in relation to infections and pilot to commence on post infection review process. Appropriate environmental decontamination resource to be identified and staff trained in its appropriate use. Compliance with IPC standard precautions and ANTT training and competence needs to be improved. A review of cleaning of shared equipment such as beds, commodes is required to reduce risks of transmission. Increase in cleaning hours across the Units is required to meet national minimum standards. Dedicated protected decant facilities are required for each Unit to ensure appropriate cleaning. Sufficient isolation rooms required to manage patient's appropriately. Estate needs to be updated and maintained to reduce risks. IPCC resources required to support community and primary care. Increase numbers of Piis on the last two months. HB over trajectory on a number of the TI Tier 1 targets. Increased level of risk due to insufficient domestic hours at Singleton hospital and significant vacancies at Morrison, lack of decant facilities,
	over occupancy in bays. Approved for increase in establishment at IBG in October 2019. 4 new posts approved. Now within VCP Process plus 1 existing band 6 vacancy. All 5 posts to be advertised in January 2020. Although there has been some improvement against TI Tier 1 targets, it is
	challenging to sustain. PII currently at Morriston Hospital. Reduction initiatives are compromised by over-crowding of wards as a result of increased activity, over-occupancy, staff vacancies, and where activity levels are such that it is not possible to decant bays to effectively clean patient areas where there have been
	infections. From an All Wales perspective, not yet achieving NHS Wales Infection Reduction Expectations. 26.05.20 - Incidence of C. difficile infection has been increasing over the last 7 months from an average of 11 cases per month to an average of 13 cases per month. The Welsh Government target is <8 cases per
	month. There has been an improvement in E. coli and Klebsiella bacteraemia cases, but these are still above the Welsh Government targets.

Primary & specialist CAMHS services are delivered by Cwm Taf University Health Board on behalf of ABMU (although this will only be for Swansea & NPT from 1/4/19).

Cwm Taf achieved the non-urgent 28 day target for specialist CAMHS by the end of March 2019. Their ability to sustain this performance is dependent on consistency and availability of staff which due to the small numbers in the various CAMHS teams can affect achievement of waiting times significantly. Target achieved in March 2019, then missed for a number of months, but achieved from September 2019. However performance is still inconsistent, and will remain so until the existing 3 teams have been integrated into one service across West Glamorgan. New service model being implemented from June 2020 which will stabilise service.

A new pathway for CAMHS patients is currently being developed which provides advice on the appropriate actions for dealing with these children and young people and will reduce the need to hold them in the Emergency Department at Morriston.

Datix ID Number: 922 Health & Care Standard: Effective Care 3.1 Clinically Effective Care		HBR Ref Number: 49

• TAVI Recovery Plan	n implemented and backlog has been cleared	Action	Lead	Deadline	
 Plan is supported with Executive oversight at fortnightly TAVI OG meeting. TAVI has been prioritised in next year's WHSSC ICP for 2020/21. The UHB has commissioned the Royal College of Physicians to undertake a review of the service. Final report awaited, but anticipated that this will indicate that patients have come to serious harm 		Commission external review of the service by the Royal College of Physicians (Awaiting report)	Directorate Manager	14th August 2020	
Reduction in waiting ti	urances Gaps in assurance		Gaps in assurance (What additional assurances should we seek?)		
	Current Risk Rating	Additional Comments			
4 x 5 = 20		Business case for WHSSC funding has been agreed. There is considerable reputational risk to the organisation on the outcome of the Royal College of Physicians review. Medical director in receipt of RCP report which will be shared widely in due course. Extensive validation of pathway start dates for cardiothoracic and TAVI patients from external health boards has taken place (in line with recommendations from DU report). Patients are now reported with true reflection of actual wait which has resulted in a reported position of 5 patients waiting >36 weeks. All patients will have TCI date before end of December 2019.			
		As part of external review, we have employed the 2nd TAVI nurse. The service remains challenging due to unscheduled care pressures particularly around cardiac short stay and also DDW has in recent weeks been closed to Norovirus. We are as a service soon to hit a 100 patient procedures as per contract base with WHSSC which leaves us with any new			

patient who presents in Feb/March with a plan to undertake their procedures from a financial perspective.

To explore the possibility of offering August 2020 Service Small numbers of patients breaching which is impacting on sustained delivery of the 31 and 62 day SBAR RT for high risk lung cancer Director patients in SWWCC target. Establishment of mobile unit to July 2020 Service Rapid Diagnostic Clinic established at Neath Port Talbot Hospital. Discussions are ongoing with regard carry out PET/CT scans for Director to patient flow and the boundary changes. Discussions are being held with the Executive team Swansea and South West Wales regarding the future direction and provision of the RDC service. Work is also ongoing to roll out the patients. concept of the RDC across Wales. Introduce COVID testing for July 2020 Service Delivery Units have Cancer Trackers to closely monitor and 'pull' patients through their pathways. Oncology and Haematology Director patients and staff involved in Weekly cancer performance meetings are held at both Singleton and Morriston Delivery Units. Also a service delivery in line with national weekly HB Cross Unit Cancer performance meeting is held. This meeting is led by the Cancer Lead quidelines. Manager/Cancer Information Team and the Units are challenged on delays and service issues. Continue to expand our Surgery Service August 2020 The tumour sites of concern across the HB for breaches are now Breast, Gynaecological and Lower GI.

Forecast performance remains a significant risk until sustainable solutions are identified for these tumour

sites and new staff appointments to support tracking and pathways are fully embedded within services.

capacity to allow our complex

backlog of patients

cancer surgeries to deal with any

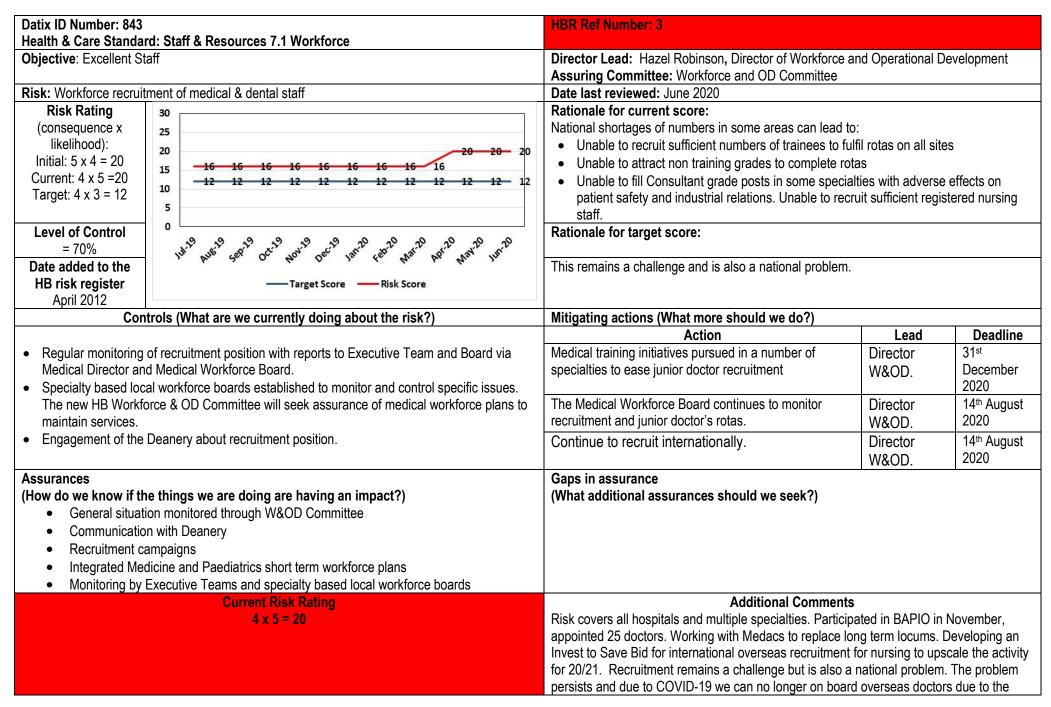

Director

Assurances (How do we know if the things we are doing are having an impact?) General improvement (sustained) trajectory. Need to continue improvement actions and close monitoring. Early diagnosis pathway launched and impact being closely monitored.	Gaps in assurance (What additional assurances should we seek?) Clear current funding gap.
Current Risk Rating 5 x 5 = 25	Additional Comments The need to deliver sustained performance. Whilst every effort is being made to maintain cancer treatment, surgical cancer activity in particular is being impacted upon by both the reduction in elective theatre capacity and availability in critical care beds due to the COVID-19 outbreak.

Datix ID Number: 1799 Health & Care Standard: Controlled Drug 2.6 Medicines Management		HBR Ref Number: 57		
Objective: Best Value Outcomes of High Quality Care		Director Lead: Richard Evans, Executive Medical Director Assuring Committee: Audit Committee		
Risk: Non-compliance with	Home Office Controlled Drug Licensing requirements	Date last reviewed: June 2020		
Risk Rating (consequence x likelihood): Initial: 5 x 4 = 20 Current: 4 x 4 = 16 Target: 4 x 2 = 8	30 25 20 15 10 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8	Rationale for current score: The Health Board has limited assurance regarding whether or not it is compliant with I Office Controlled Drug Licensing requirements at the present time, nor does it current have processes in place to ensure any future service change complies. Risk: That the Health Board is operating in breach of the law by managing controlled without an appropriate Home Office Controlled Drug License. Legal advice provided to Health Board has indicated that failure to comply with the Home Office Controlled Drug licensing requirements could result in criminal and civil action, both against responsible individuals and the Health Board as a public body. Work has commenced to fully understand the licensing situation along with the drafting of a detailed policy that will example going forward. Risk: That the Health Board is maintaining unnecessary Home Office Controlled Drug Licenses. Each Home Office Controlled Drug license costs around £3k plus additional administrative set-up and maintenance costs. Health Board wide scrutiny is required to ensure no unnecessary licenses are held (one such example has recently been		
		discovered).		
Level of Control = 40%		Rationale for target score:		
Date added to the HB risk register January 2019		Once the new policy is complete and has been checked for legal compliance to the Home Office regulations there will be a training session held with all clinical areas supported at Executive level. The work currently underway includes checking areas of concern for compliance with the regulations.		
Controls (What are we currently doing about the risk?)		Mitigating actions (What more should we do?)		
		Action Lead	Deadline	

Legal advice received and principles upon which to decide whether a Home Office Controlled Clinical Director 30th June 2020 Drug License would be required have been drafted. This forms the basis of a detailed policy of Medicines (Pending policy that is currently in draft form. This will be sent for legal ratification to ensure compliance to the Management development Home Office regulations. The Home Office have been advised work is currently being (Pending and sign off in completed as a matter of urgency. Training session to be held for all clinical areas. Following the investment already provided to the funded establishments. The overall risks have reduced as outlined above. The quality and accuracy of the Acuity data has improved. **Current Risk Rating** Non Compliance with Nurse Staffing Levels (Wales) Act (2016) The Nurse Staffing Levels (Wales) Act, which received Royal Assent on 21st March 2016, places an $4 \times 5 = 20$ overarching duty on Local Health Boards and NHS Trusts in Wales to ensure that nurses have time to care sensitively for their patients and codifies current best practice for determining nurse-staffing levels. It requires Local Health Boards and NHS Trusts in Wales to calculate and maintain staffing levels in specific clinical areas, which are Adult acute Medical & Surgical wards. In accordance with the Act, Health Boards/Trusts must submit annual reports to their board and threeyearly reports to Welsh Government in relation to their compliance with the staffing levels, the impact upon the quality of care where the nurse staffing level was not maintained and the actions required in response to this. The Act currently requires the reporting of adult acute medical and surgical inpatient wards, 32 wards in total across the Health Board. In preparation for the Act Service delivery Units have all produced detailed risk assessments in preparation for the Act: Morriston 20 Singleton 16 NPT 6 POW 16 Current Status Singleton 15 Morriston 15 NPT 6. Operating Framework in place. Progress is being made the last paper went to Board November 2019. The paper was accepted by the Board. Letters have been sent to Morriston & Singleton Delivery Unit confirming the outcome of Novembers Board and support for Funding. The templates are being signed. NPT Delivery Unit has already received a letter. 1st June due to COVID-19 a letter was received from the Chief Nursing Officer (Wales) outlining the impact of COVID-19 and actions to be considered. The Bi-Annual Nurse Staffing Act paper was postponed and a COVID-19 paper in relation to the disruption to the Nurse staffing levels Act was presented to May's Board in its place. The paper was based on an All Wales Template. Staffing has improved across the Health Board although the score remains the same in light of the uncertain time and a number of factors relating to the Covid-19 situation.

Action Implement National Cyber Security Tools	Lead Cyber Security Manager	Deadline 17 th July 2020

The NHS in Wales is protected by a firewall by NHS Wales Informatics Service (NWIS). Swansea Bay UHB has advanced firewall protection to protect the network from potential cyber- attacks. All emails coming into NHS Wales are scanned using the national email filter. Whilst malicious emails come into the health board on a daily basis, the number are vastly reduced using the email filter and NWIS issue warnings to users affected when the contents are discovered (same day). Users are warned to delete emails and if opened, contact ICT service desk for investigation. A patching regime has been in place around 18 months which ensures desktops, laptops and servers are protected against any known security vulnerabilities. Anti-virus is in place to protect against known viruses with intelligent scanning on potential viruses not yet discovered. Access to the internet is controlled through a smart filtering solution which restricts access to potentially vulnerable content. Work is ongoing in order to replace out of date systems, this is a huge task given the number of clinical and administrative systems in place across the health board. The creation of the service management board will help in terms of getting stakeholder agreement and engagement. Capital funding has also been available to address this. A Cyber Security training module has been developed and available in the Electronic Staff Record training to ensure staff are fully aware of the risk of cyber security and are vigilant in recognising malicious activity e.g. malicious email. This needs to be adopted as mandatory training. Assurances (How do we know if the things we are doing are having an impact?) Gaps in assurance (What additional assurances should we This will be developed following the appointment of the Cyber Security Manager. seek?) In the meantime, the follow up Stratia report has confirmed a major improvement in terms of Microsoft Security patching and SBU are compliant with standards agreed. The Cyber Assurance Framework (compliance with NISD) has been submitted to the Operational Security Service Management Board and plan will be developed nationally to address areas of non-compliance. **Additional Comments Current Risk Rating** Band 8a Cyber Security Manager appointed October 2019. $5 \times 3 = 15$ Microsoft patching is compliant. NISD CAF completed and submitted to OSSMB. 2 Band (6) Cyber Security staff have now been appointed and are due to commence shortly. (completed) National Security Tool - SIEM Systems integrated, currently working on the final interfaces. NESSUS still awaiting National timescales for NWIS for rollout. Meetings in progress to make Cyber Security Training mandatory across the Health Board.

failure of national systems secondary care service	of national data centre outages which disrupt health board services. The tems causes severe disruption across NHS Wales, affecting Primary and ces. The delivery of national services including the management of systems, sting services are the responsibility of NHS Wales Informatics Service (NWIS).	Date last reviewed: June 2020			
Risk Rating (consequence x likelihood): Initial: 4 x 5 = 20 Current: 4 x 5 = 20 Target: 4 x 4 = 16 Level of Control = Date added to the HB risk register 27/02/2020	20 20 15 10 5 0 -20 20 20 20 20 20 16 16 16 16 16 16 -16 10	Rationale for current score: C -The number of outages in 2018 and impact across NHS Wales resulted in a review of NWIS services including the wider Informatics services in NHS Wales. In the June 2019 outage, some services took as long as 2 weeks to recover. L -There have been a number of multi system outages over the last 2 years with a number of factors causing outages or resulting in extended outages. Therefore there is a likelihood of a recurrence in the future. Rationale for target score: C - As reliance on digital solutions for the provision of clinical services grows the impact of outages will also grow. Whilst controls will be put in place to mitigate against the impact of outages this will be offset by the growth in the importance of digital solutions. As a result the consequence score will remain at 4. L - The likelihood of national data center outages will never be fully eliminated. The current score of 5 is based on the fact there have been WLIMS outages over recent			
Controls (What are we currently doing about the risk?)		years. Mitigating actions (What more should we do?)			
	cture Management Board (IMB) and Service Management Board (SMB) are the	Action	Lead	Deadline	
boards that oversee Major Incidents, identify risks for national services and make recommendations to improve the availability of national services.		Representation at SMB, IMB and NSMB	Head of ICT Operations	29 th January 2021	
These boards meet monthly to hold NWIS to account for delivery of services. Infrastructure major incident reviews are undertaken with selected board members and		Representation on EPRR	Informatics Business Manager	29 th January 2021	
recommendations agreed in the board. The impact of outages is partly mitigated by the Business Continuity plans that are in place within the Service Delivery Units to allow operational services to continue during a data center service outage.		Representation at NWIS Directors Meetings	Associate Director of Digital Services	29 th January 2021	
Assurances (How do we know if the things we are doing are having an impact?) NWIS have a Programme of works to upgrade out of date equipment. The network upgrade Programme was completed this year at the NDC and BDC.		Gaps in assurance (What additional assurances should we seek?)			

The final report on the BDC outage has been received and recommendations put in place to increase maintenance levels and monitoring. NWIS have produced an action plan which is agreed in the IMB and progress monitored. Any deviation from the action plan will be escalated to the SMB and if appropriate to the NHS Wales Informatics Management Board which is chaired by the Chief Executive Officer of NHS Wales and has Executive level board members. In addition, it is recommended that serious consideration should be given to identifying and funding an alternative Tier 3+ facility (in line with the NDC) to host these critical systems. WLIMS 2016 upgrade is required to address some of the technical issues experienced on the existing version. This is planned for September 2020. A re- procurement of a new Pathology Laboratory Information Management system is in progress with timescales An architecture review is underway to assess current services and make recommendations on future services (including hosting services).	
Current Risk Rating 4 X 5 = 20	Additional Comments

Risk Score Calculation

For each risk identified, the LIKELIHOOD & CONSEQUENCE mechanism will be utilised. Essentially this examines each of the risks and attempts to assess the likelihood of the event occurring (PROBABLILITY) and the effect it could have on the Health Board (IMPACT). This process ensures that the Health Board will be focusing on those risks which require immediate attention rather than spending time on areas which are, relatively, a lower priority.

Risk Matrix	LIKELIHOOD (*)				
CONSEQUENCE (**)	1 - Rare	2 - Unlikely	3 - Possible	4 - Probable	5 - Expected
1 - Negligible	1	2	3	4	5
2 - Minor	2	4	6	8	10
3 - Moderate	3	6	9	12	15
4 - Major	4	8	12	16	20
5 - Catastrophic	5	10	15	20	25
