## High Quality Care

### **Controls:**

Evidenced within:

- Annual Plan
- Commissioning
- Annual Quality Objectives
- intentions and plans
- Capital and Estates Strategy
- Quality Impact Assessment protocol
- Equality Impact Assessment

### **Assurance:** gained via:

- Quality and Safety Committee
- Divisional Quality Groups
- Senior Leadership Team
- Annual Quality Report
- Annual Report and Annual Governance Statement
- Chairs Reports
- Visits and Inspections

## Performance Management

### **Controls:**

- Objectives and Appraisals
- Performance targets
- Performance Dashboards and monthly reporting
- Regular Performance and Quality reports
- Concerns and Patient Experience Reports
- Serious Incident Reporting

### **Assurance:** gained via:

- Unit Boards, Service/Ward levels
- Escalation arrangements
- Audits, visits
- Executive Director and Senior Leadership Team meetings
- Quality and Safety, Finance and Audit Committees
- Internal/External Audits

## Risk Management

### **Controls:**

- Risk management strategy and Policy
- Board Assurance Framework
- Corporate Risk Register
- Divisional Risk Register
- Reports to the Board, Senior Leadership Team and sub committees
- Policies and Procedures
- Scheme of Delegation

### **Assurance:** gained via:

- Delivery Boards, Service/Ward levels
- Escalation arrangements
- Internal/External Audits, visits
- Executive Director and Senior Leadership Team meetings
- Quality and Outcomes, Finance and Audit Committees

## Levels of Assurance

### First Line Operational

- Organisational structures – evidence of delegation of responsibility through line Management arrangements
- Compliance with appraisal process
- Compliance with Policies and Procedures
- Incident reporting and thematic reviews
- Compliance with Risk Management processes and systems
- Performance Reports, Complaints and Patient Experience Reports, Workforce Reports, Staff Nursing Report, Finance Reports

### Second Line Risk and Compliance

Reports to Assurance and Oversight Committees

- Audit Committee
- Finance Committee
- Quality and Safety Committee
- Remuneration Committee
- Risk Management Group, Health and Safety Groups etc.

Findings and/or reports from inspections, Friends and Family Test, Annual Reporting through to Committees, Self-Certification

### Third Line Independent Assurance

- Internal Audit Plan
- Wales Audit Office (WAO) (Structured Assessment)
- External Audits (e.g. Annual Accounts and Annual Report)
- Health Inspectorate Wales (HIW) Inspections
- Visits by Royal Colleges
- External visits and accreditations
- Independent Reviews

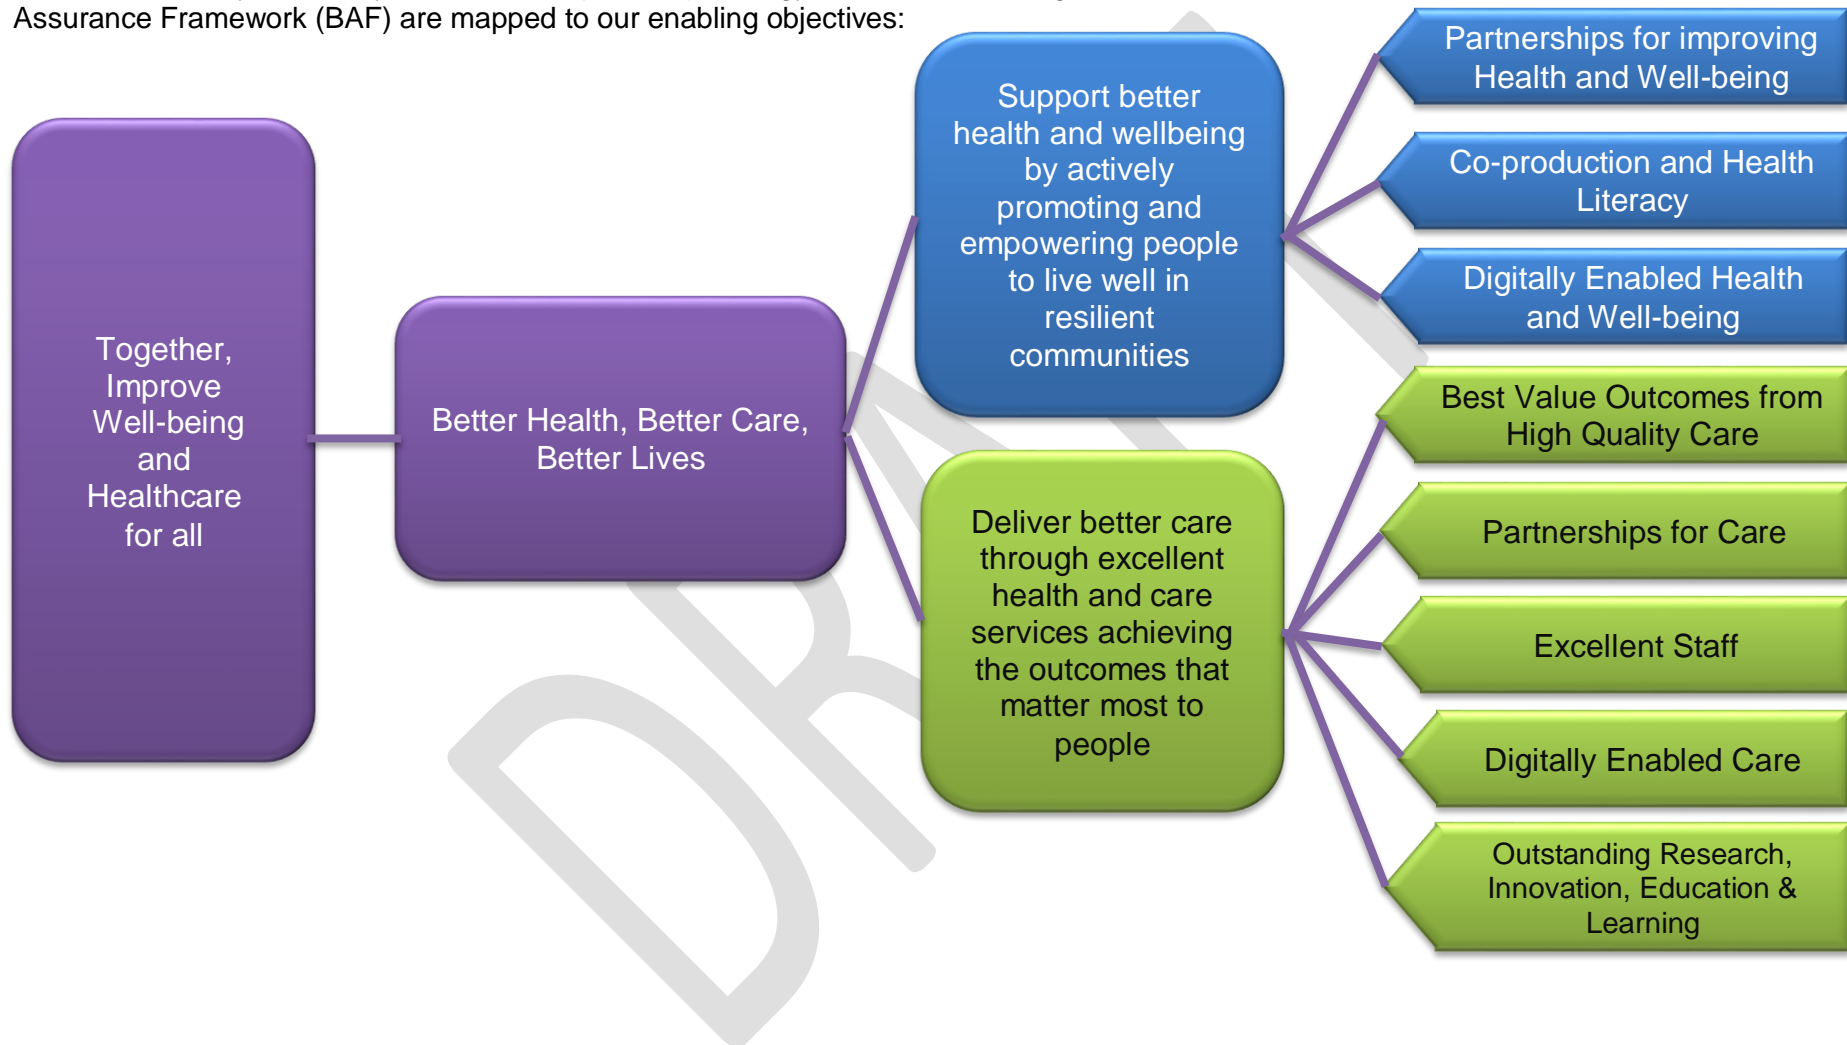

VISION AND STRATEGIC PRIORITIES

REGULATORS

EXTERNAL AUDIT

## Aligning Board Assurance with Swansea Bay University Health Board (SBUHB) Strategy

The Swansea Bay University Health Board (SBUHB) strategy is outlined in the figure below and all risks identified for inclusion on the Health Board Assurance Framework (BAF) are mapped to our enabling objectives:

## Board Assurance Framework Summary Against SBUHB Enabling Objectives – March 2021

|  | Aug<br>2019   | Mar<br>2021   |
|--|---|---|
| <b>Partnerships for improving Health and Well-being</b>  |   |   |
| Failure to reduce inequalities and deliver improvements in population health for our population  |    |    |
| <b>Co-production and Health Literacy</b>   |   |   |
| Failure to establish and maintain effective relationships with our partners to lead and shape our joint strategy and delivery plans, based on the principles of sustainability, transformation and partnership working |    |    |
| <b>Digitally Enabled Care, Health and Well-being</b>   |   |   |
| Failure to have IM&T systems in place which do not meet the requirements of the organisation   |    |    |
| <b>Best Value Outcomes from High Quality Care</b>  |   |   |
| Risk that the Health Board will be unable to maintain the quality of patient services and financial sustainability   |    |    |
| <b>Partnerships for Care</b>   |   |   |
| Failure to establish and maintain effective relationships with our partners to lead and shape our joint strategy and delivery plans, based on the principles of sustainability, transformation and partnership working |   |   |
| <b>Excellent Staff</b>   |   |   |
| Failure to have an appropriately resourced, focussed, resilient workforce in place that meets service requirements.  |  |  |
| <b>Outstanding research, Innovation, Education and Learning</b>  |   |   |
| Failure that the Health Board will not be able to embed research and teaching into the care we provide, and develop new treatments for the benefit of patients and the NHS.  |  |  |

|     |   |   |   |
|-----|---|---|---|
| Key | Improvement  | Deterioration  | No Change  |
|-----|---|---|---|

## Approach to Risk Assessment - Risk scoring = consequence x likelihood

|                | Likelihood |            |            |          |                  |
|----------------|------------|------------|------------|----------|------------------|
| Consequence    | 1 Rare     | 2 Unlikely | 3 Possible | 4 Likely | 5 Almost certain |
| 5 Catastrophic | 5          | 10         | 15         | 20       | 25               |
| 4 Major        | 4          | 8          | 12         | 16       | 20               |
| 3 Moderate     | 3          | 6          | 9          | 12       | 15               |
| 2 Minor        | 2          | 4          | 6          | 8        | 10               |
| 1 Negligible   | 1          | 2          | 3          | 4        | 5                |

For grading risk, the scores obtained from the risk matrix are assigned grades as follows:

|         |                |
|---------|----------------|
| 1 - 3   | Low risk       |
| 4 - 9   | Moderate risk  |
| 8 - 15  | High risk      |
| 16 - 25 | Very High risk |

The current scores for principal risks are summarised in the following heat map.

|                | Likelihood |            |            |          |                  |
|----------------|------------|------------|------------|----------|------------------|
| Consequence    | 1 Rare     | 2 Unlikely | 3 Possible | 4 Likely | 5 Almost certain |
| 5 Catastrophic |            |            |            |          |                  |
| 4 Major        |            |            |            |          |                  |
| 3 Moderate     |            |            |            |          |                  |
| 2 Minor        |            |            |            |          |                  |
| 1 Negligible   |            |            |            |          |                  |

### Assurance Ratings

**Substantial assurance** - The Board can take **substantial assurance** that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively. Few matters require attention and are compliance or advisory in nature with **low impact on residual risk** exposure.

**Reasonable assurance** - The Board can take **reasonable assurance** that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively. Some matters require management attention in control design or compliance with **low to moderate impact on residual risk** exposure until resolved.

**Limited assurance** - The Board can take **limited assurance** that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively. More significant matters require management attention with **moderate impact on residual risk** exposure until resolved.

**No assurance** - The Board has **no assurance** that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively. Action is required to address the whole control framework in this area with **high impact on residual risk** exposure until resolved.
