

HEALTH BOARD RISK REGISTER February 2020

Aligning Risk with Swansea Bay University Health Board (SBUHB) Strategy

The Swansea Bay University Health Board (SBUHB) strategy is outlined in the figure below and all risks identified for inclusion on the Health Board Risk Register are mapped to our enabling objectives.

HEALTH BOARD RISK REGISTER DASHBOARD OF ASSESSED RISKS – February 2020

16: Access to Planned Care Services 50: Access to Cancer Services 63: Screening for Fetal Growth Assessment in line with Gap-Grow (G&G) 65: CTG Monitoring in Labour Wards 68: Coronavirus Pandemic 69: Adolescents being admitted to Adult MH wards 70: Data Centre outages 64: H&S Infr 39: IMTP St 11: Healthcare Model for Aging Population Radiotherap 66: SACT T	rastructure tatutory Responsibility al Plan able Corporate

Risk Register Dashboard

Strategic Objective	Risk Reference	Description of risk identified	Initial Score	Current Score	Trend	Controls	Last Reviewed	Scrutiny Committee
Best Value Outcomes from High Quality Care	1 (738)	Access to Unscheduled Care Service Failure to comply with Tier 1 target for Unscheduled Care could impact on patient and family experience of care.	25	25	→	→	February 2020	Quality and Safety Committee
	4 (739)	Infection Control Failure to achieve infection control targets set by Welsh Government could impact on patient and family experience of care.	20	20	→	→	February 2020	Quality and Safety Committee
	11 (837)	Ageing Population Failure to provide an appropriate healthcare model for the ageing population over the next 20 years.	16	16	→	→	February 2020	Quality and Safety Committee
	13 (814)	Environment of HB Premises Failure to meet statutory health and safety requirements.	16	12	Ψ	^	February 2020	Health and Safety Committee
	64 (2159)	Health and Safety Infrastructure Insufficient resource and capacity of the health, safety and fire function to maintain legislative and regulatory compliance.	20	20	→	→	February 2020	Health and Safety Committee
	16 (840)	Access to Planned Care Failure to achieve compliance with waiting times, there is a risk that patients may come to harm. Also, financial risk not achieving targets.	16	20	↑	→	February 2020	Performance and Finance Committee
	37 (1217)	Information Led Decisions Operational and strategic decisions are not data informed.	16	16	→	→	February 2020	Audit Committee

39 (1297)	Approved IMTP – Statutory Compliance If the Health Board does not have an approved IMTP signed off by Welsh Government, primarily due to the inability to align performance and financial plans it will remain in escalation status, currently "targeted intervention".	16	20	↑	→	February 2020	Performance and Finance Committee
41 (1567)	Fire Safety Compliance Fire Safety notice received from the Fire Authority – MH&LD Unit. Uncertain position in regard to the appropriateness of the cladding applied to Singleton Hospital in particular (as a high rise block) in respect of its compliance.re safety regulations.	12	12	→	→	February 2020	Health and Safety Committee
42 (1398)	Financial Plan If the Board is unable to successfully deliver a sustainable service and develop a balanced financial plan to support the Statutory Breakeven Financial Duty.	12	20	↑	→	February 2020	Performance and Finance Committee
43 (1514)	DoLS If the Health Board is unable to complete timely completion of DoLS Authorisation then the Health Board will be in breach of legislation and claims may be received in this respect.	16	16	→	→	February 2020	Quality and Safety Committee
48 (1563)	CAMHS Failure to sustain Child and Adolescent Mental Health Services (CAHMS).	16	16	→	→	February 2020	Performance and Finance Committee

	49 (922)	Trans-catheter Aortic Valve Implementation (TAVI) Failure to provide a sustainable service for Trans-catheter Aortic Valve Implementation (TAVI)	25	20	*	→	February 2020	Quality and Safety Committee
	63 (1605)	Screening for Fetal Growth Assessment in line with Gap-Grow Due to the scanning capacity there are significant challenges in achieving this standard.	20	20	→	→	February 2020	Quality and Safety Committee
	50 (1761)	Access to Cancer Services Failure to sustain services as currently configured to meet cancer targets could impact on patient and family experience of care.	20	20	→	→	February 2020	Performance and Finance Committee
	57 (1799)	Controlled Drugs Non-compliance with Home Office Controlled Drug Licensing requirements.	20	16	*	→	February 2020	Audit Committee
	66 (1834)	Access to Cancer Services Delays in access to SACT treatment in Chemotherapy Day Unit	25	25	→	→	February 2020	Quality and Safety Committee
	67 (89)	Risk target breeches – Radiotherapy Clinical risk – Target breeches of radical radiotherapy treatment	16	25	→	→	February 2020	Quality and Safety Committee
	69 (1418)	Safeguarding Adolescents being admitted to adult MH wards	16	20	→	→	February 2020	Quality & Safety Committee
Excellent Staff	3 (843)	Workforce Recruitment Failure to recruit medical & dental staff	20	16	V	→	February 2020	Workforce and OD Committee

	51 (1759)	Nurse Staffing (Wales) Act Risk of Non Compliance with the Nurse Staffing (Wales) Act	16	12	•	•	February 2020	Workforce and OD Committee
	62 (2023)	Sustainable Corporate Services Health Board's Annual Plan and organisational strategy, and with the skills, capability, behaviours and tools to successfully deliver in support of the whole organisation, and to do so in a way which respects and promotes the health and well-being of our staff and their work-life balance.	20	20	→	→	February 2020	Workforce and OD Committee
Digitally Enabled Care	27 (1035)	Sustained Clinical Services Inability to deliver sustainable clinical services due to lack of digital transformation.	16	12	4	↑	February 2020	Audit Committee
	36 (1043)	Storage of Paper Records Failure to provide adequate storage facilities for paper records then this will impact on the availability of patient records at the point of care. Quality of the paper record may also be reduced if	20	12	4	↑	February 2020	Audit Committee
	45 (1565)	Discharge Information If patients are discharged from hospital without the necessary discharge information this may have an impact on their care	20	16	\	→	February 2020	Quality and Safety Committee
	60 (2003)	Cyber Security – High level risk The level of cyber security incidents is at an unprecedented level and health is a known target.	20	20	→	→	February 2020	Audit Committee

	65 (329)	CTG Monitoring on Labour Wards Risk associated with misinterpreting abnormal CTG readings in delivery rooms.	20	20	→	→	February 2020	Information Governance Board
	70 (2245)	National Data Centre Outages The failure of national systems causes severe disruption across NHS Wales, affecting Primary and secondary care services.	20	20	→	→	February 2020	Audit Committee
Partnerships for Improving Health and Wellbeing	58 (146)	Ophthalmology - Excellent Patient Outcomes There is a failure to provide adequate clinic capacity to support follow-up patients within the Ophthalmology specialty.	20	20	→	→	February 2020	Quality and Safety Committee
	15 (737)	Population Health Targets Failure to achieve population health improvement targets leading to an increase in preventable disease amongst the population resulting in increased morbidity impacting on operational and financial pressures.	15	15	→	→	February 2020	Quality and Safety Committee
	68 (2299)	Pandemic Framework Risk of declared pandemic due to Coronavirus Infectious Disease outbreak 2020.		20		↑	February 2020	Quality and Safety Committee

	61 (1587)	Paediatric Dental GA Service – Parkway Identify alternative arrangements to Parkway Clinic for the delivery of dental paediatric GA services on the Morriston Hospital SDU site consistent with the needs of the population and existing WG and Health Board policies.	15	16	↑	→	February 2020	Quality and Safety Committee
Partnerships for Care	52 (1763)	Statutory Compliance The Health Board does not have sufficient resource in place to undertake engagement & impact assess in line with Statutory Duties	16	12	¥	•	February 2020	Performance & Finance Committee
	53 (1762)	Welsh Language Standards Failure to fully comply with all the requirements of the Welsh Language Standards, as they apply to the University Health Board.	15	15	→	→	February 2020	Health Board (Welsh Language Group)
	54 (1724)	Brexit Failure to maintain services as a result of the potential no deal Brexit	15	15	→	→	February 2020	Health Board (Emergency Preparedness Resilience and

Risk Schedules

Datix ID Number: 738 Health & Care Standard: 5.1 Timely Care	HBR Ref Number: 1						
Objective: Best Value Outcomes from High Quality Care	Director Lead: Chris White, Chief Operating Officer Assuring Committee: Quality and Safety Committee						
Risk: If we fail to comply with Tier 1 target – Access to Unscheduled Care then this will have an impact on patient and family experience. Challenges with capacity /staffing across the Health and Social care sectors.	Date last reviewed: February 2020						
Risk Rating (consequence x likelihood):	Rationale for current score: At the end of Quarter performance the Health Board did not achieve performance trajectories. Due to current pressures in MH A&E it was requested by the Q&S Forum that the risk score was upgraded.						
Level of Control = 50% **Extra Setria Setri	Rationale for target score:						
Date added to the HB risk register 26.01.16	The service delivery units have been implementing models of care that reflect National priori and there is evidence that these are starting to impact positively on patient flow, length of start and demand management. Workforce capacity issues continue to be challenging in some keepsecialty areas.						
Controls (What are we currently doing about the risk?)	Mitigating actions (What more s	should we do?)					
 Programme management arrangements in place to improve Unscheduled Care performance. Daily Health Board wide conference calls/ escalation process in place. Regular reporting to Executive Team, Executive Board and Health Board/Quality 	Action Bed utilisation audit being undertaken to support USC system redesign programme in NPT and Swansea.	Lead Deputy Chief Operating Officer	Deadline 16 th March 2020				
 and Safety Committee. Increased reporting as a result of escalation to targeted intervention status. Targeted unscheduled care investment to support changes to front door service models/ workforce redesign/ patient flow. Weekly unscheduled care meeting implemented, led by COO and attended by Service Directors 	Implement findings of Kendall Bluck report once supported by Executive Team	Chief Operating Officer	16 th March 2020				
Assurances (How do we know if the things we are doing are having an impact?) • Executive monitoring/support to achieve improvement plans on a weekly basis.	Gaps in assurance (What additional assurances should we seek?) The need to deliver sustained service. Additional Comments						
Current Risk Rating 5 x 5 = 25							

Datix ID Number: 739 Health & Care Standa	rd: 2.4 Infection Prevention & Control & Decontamination	HBR Ref Number: 4						
Risk: Failure to achieve	Outcomes from High Quality Care e infection control targets set by Welsh Government, increase risk ed costs associated with length of stays.	Director Lead: Gareth Howells, Director of Nursing and Patient Experience Assuring Committee: Quality and Safety Committee Date last reviewed: February 2020						
Risk Rating (consequence x likelihood): Initial: 4 x 5 = 20 Current: 5 x 4 = 20 Target: 4 x 3 = 12	30 25 20 15 10 5	Rationale for current score: Currently under targeted intervention for rates of infection with monthly fluctuations	, achievement of targets	are variable				
Level of Control = 40% Date added to the	Maria Maria Maria Muria Miria Maria Sebra Oria Monia Decia Muria Sebra	Rationale for target score: Once the infection control team is fully recruited to, ICNet is functioning to its full						
HB risk register January 2016	——Target Score ——Risk Score	infection control team will be able to support the climprovements. In addition, a negative pressure isolation facility is being be at Morriston hospital providing another facility to appropriate Review and implementation of a robust clean of patient in the risk of cross infection.	inical areas more and uilt into the new emerger ately manage patients at	drive service ncy department the front door.				
Contro	Is (What are we currently doing about the risk?)	Mitigating actions (What more should we do?)						
Regular reporting theICNet information inInfection control tea	s and guidelines in place nrough internal processes nanagement system for infections is in place am support the clinical teams for issues relating to infection control	Action Recruitment to ensure the team is fully established with the right skills and experience Ongoing infection control team involvement in site level estates projects to ensure appropriate isolation facilities are factored in from the outset	Lead Assist Dir Nursing Infection Control Senior Infection Control Matron	Deadline 31st March 2020 31st March 2020				
Recruitment is ongo in infection control I	ion control doctor has been recruited oing and the decontamination lead and assistant director of nursing have been appointed provement programme	HPV/UV cleaning post infection to be implemented	Assist Dir Nursing Infection Control	31st March 2020				
Assurances (How do we know if the	ne things we are doing are having an impact?) toring of infection control rates and feedback provided to delivery	Gaps in assurance (What additional assurances should we seek?) ICNet provides information linked with PAS relating to pat the connection was made therefore additional manual rec control team creating additional work and some duplication	ords are maintained by t					

- Infection Control Committee monitors infection rates and identifies key actions to drive improvement
- Sub groups to the infection control committee such as the decontamination group provide the assurances and operationally drive key areas of work.

Current Risk Rating 5 x 4 = 20

Additional Comments

Significant progress to date however trajectory not met overall. Work underway on recruitment to IPC, a work plan to improve practice and improved information available for reporting, oversite and also investigation.

13/06/19 Continue to make progress against annual IMTP profiles, however, incidence within the Health Board remains above that for the NHS in Wales. Recruitment to Matron IPC post on 03/06/19. Work in progress to improve incident reporting in relation to infections and pilot to commence on post infection review process.

Appropriate environmental decontamination resource to be identified and staff trained in its appropriate use.

Compliance with IPC standard precautions and ANTT training and competence needs to be improved.

A review of cleaning of shared equipment such as beds, commodes is required to reduce risks of transmission.

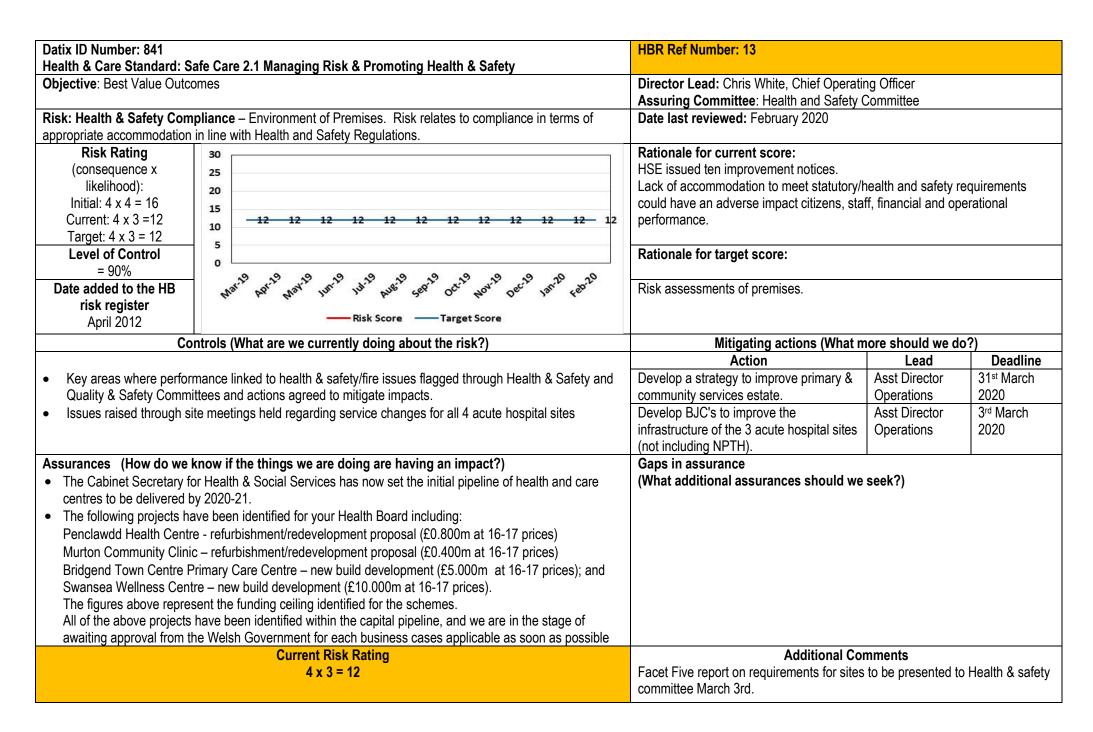

Increase in cleaning hours across the Units is required to meet national minimum standards. Dedicated protected decant facilities are required for each Unit to ensure appropriate cleaning. Sufficient isolation rooms required to manage patient's appropriately.

Estate needs to be updated and maintained to reduce risks.

IPCC resources required to support community and primary care.

Increase numbers of Piis on the last two months. HB over trajectory on a number of the TI Tier 1 targets. Increased level of risk due to insufficient domestic hours at Singleton hospital and significant vacancies at Morrison, lack of decant facilities, over occupancy in bays. Approved for increase in establishment at IBG in October 2019. 4 new posts approved. Now within VCP Process plus 1 existing band 6 vacancy. All 5 posts to be advertised in January 2020. Although there has been some improvement against TI Tier 1 targets, it is challenging to sustain. PII currently at Morriston Hospital. Reduction initiatives are compromised by over-crowding of wards as a result of increased activity, over-occupancy, staff vacancies, and where activity levels are such that it is not possible to decant bays to effectively clean patient areas where there have been infections. From an All Wales perspective, not yet achieving NHS Wales Infection Reduction Expectations.

Datix ID Number: 837 Health & Care Standard: Stav	ring Healthy 1.1 Health Promotion & Protection & Improvement	HBR Ref Number: 11				
Objective: Best Value Outcom		Director Lead: Gareth Howells, Director of Nursing and Patient Experience Assuring Committee: Quality and Safety Committee				
care resident population will se	propriate healthcare model for aging population over next 20 years e a 24% increase in people of a pensionable age and 15% increase in oviding services to enable citizens to live independently at home is a major	Date last reviewed: February 2020				
Risk Rating (consequence x likelihood): Initial: 4 x 4 = 16 Current: 4 x 4 = 16 Target: 4 x 3 = 12 Level of Control = 70% Date added to the HB risk register January 2013	30 25 20 15 16 16 16 16 16 16 16 16 16 16 16 16 16	Rationale for current score: New Hospital to Home Service Module, Good Care at Home. Rationale for target score: New models of care will reduce the risk to be at an acceptable level for tin discharges reducing lengthy harmful patient delays from hospital.				
		Mitigating actions (What m				
 Controls (What are we currently doing about the risk?) Twelve standards of care for older people in hospital have been developed jointly by clinical staff, patient groups and voluntary sector organisations. The 'See It Say It' campaign was established to make it easier for staff, patients and visitors to raise concerns – anonymously if they wish – by phone, text or email Introduction of the '15 Step Challenge' to improve the first impression patients and visitors get when they enter a ward Close monitoring of the implementation plan via Health Board Clinical Redesign Group Restructured Dementia Care Steering Group (July 2019) to review and monitor services for those living with Dementia within the Health Board population. New models of working to commence as phased approach December 2019 – Hospital to Home essentially aims to increase the quality of patient care and patient experiences due to timely discharges from hospital through primarily a Reablement home-based home support using a Trusted Assessor model. Current hospital based assessment will shift to home based assessment which is strengths based and takes place when the person (patient) is not in crisis (in hospital). Jointly developed with Local Authority and Health. 		Action Move to a balanced service model with bed provision reducing over time, development of community OPMH Hubs, community development and essential infrastructure services such as support & stay, care home support, memory clinics and Day Services.	Lead Corporate Head of Nursing	Deadline 31st March 2020		
Assurances (How do we know if the things we are doing are having an impact?)		Gaps in assurance (What additional assurances should we seek?)				
Current Risk Rating 4 x 4 = 16		Additional Comments Commenced Hospital to home service December 2019. Updated safer patient flow and discharge policy October.

Primary & specialist CAMHS services are delivered by Cwm Taf University Health Board on behalf of ABMU (although this will only be for Swansea & NPT from 1/4/19).

Cwm Taf achieved the non-urgent 28 day target for specialist CAMHS by the end of March 2019. Their ability to sustain this performance is dependent on consistency and availability of staff which due to the small numbers in the various CAMHS teams can affect achievement of waiting times significantly. Target achieved in March 2019, then missed for a number of months, but achieved from September 2019. However performance is still inconsistent, and will remain so until the existing 3 teams have been integrated into one service across West Glamorgan. New service model being implemented from June 2020 which will stabilise service.

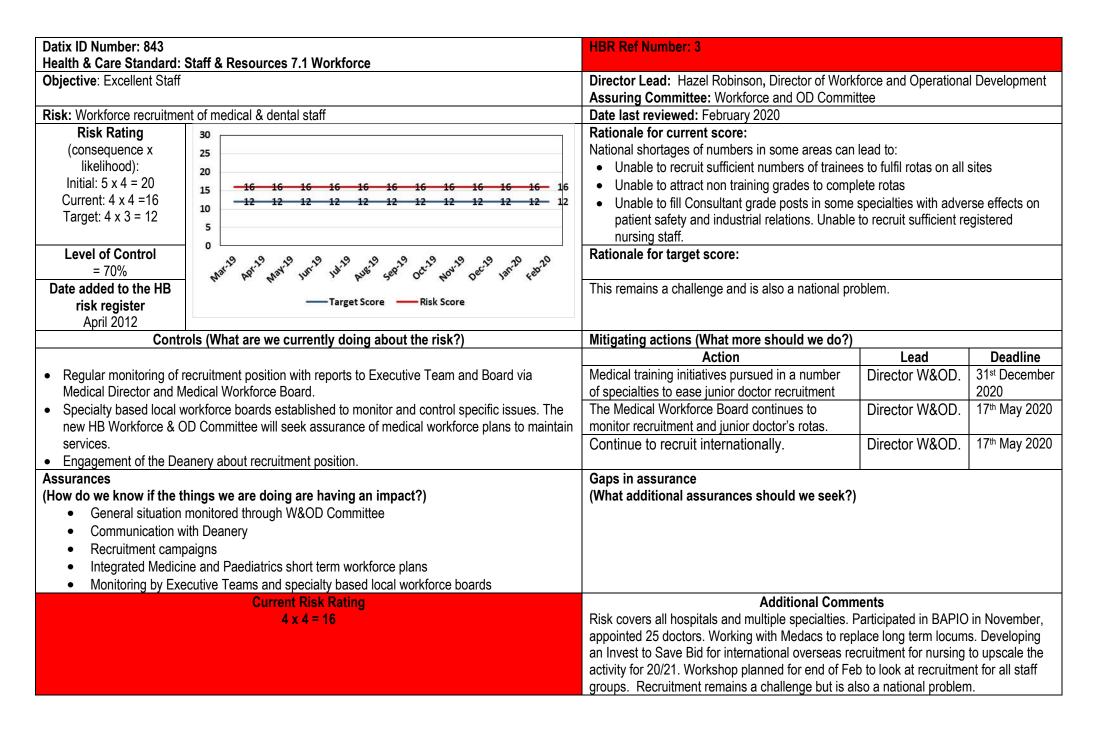

procedures as per contract base with WHSSC which leaves us with any new patient who presents in Feb/March with a plan to undertake their procedures from a financial perspective.

Implement National Cyber Security Tools	Cyber Security Manager	31st March 2020

The NHS in Wales is protected by a firewall by NHS Wales Informatics Service (NWIS). Swansea Bay UHB has advanced firewall protection to protect the network from potential cyber- attacks. All emails coming into NHS Wales are scanned using the national email filter. Whilst malicious emails come into the health board on a daily basis, the number are vastly reduced using the email filter and NWIS issue warnings to users affected when the contents are discovered (same day). Users are warned to delete emails and if opened, contact ICT service desk for investigation. A patching regime has been in place around 18 months which ensures desktops, laptops and servers are protected against any known security vulnerabilities. Anti-virus is in place to protect against known viruses with intelligent scanning on potential viruses not yet discovered. Access to the internet is controlled through a smart filtering solution which restricts access to potentially vulnerable content. Work is ongoing in order to replace out of date systems, this is a huge task given the number of clinical and administrative systems in place across the health board. The creation of the service management board will help in terms of getting stakeholder agreement and engagement. Capital funding has also been available to address this. A Cyber Security training module has been developed and available in the Electronic Staff Record training to ensure staff are fully aware of the risk of cyber security and are vigilant in recognising malicious activity e.g. malicious email. This needs to be adopted as mandatory training. Assurances (How do we know if the things we are doing are having an impact?) Gaps in assurance (What additional assurances should we This will be developed following the appointment of the Cyber Security Manager. seek?) In the meantime, the follow up Stratia report has confirmed a major improvement in terms of Microsoft Security patching and SBU are compliant with standards agreed. The Cyber Assurance Framework (compliance with NISD) has been submitted to the Operational Security Service Management Board and plan will be developed nationally to address areas of non-compliance. **Additional Comments Current Risk Rating** Band 8a Cyber Security Manager appointed October 2019. $5 \times 4 = 20$ Microsoft patching is compliant. NISD CAF completed and submitted to OSSMB. 2 Band (6) Cyber Security staff have now been appointed and are due to commence shortly. (completed) National Security Tool - SIEM Systems integrated, currently working on the final interfaces. NESSUS still awaiting National timescales for NWIS for rollout. Meetings in progress to make Cyber Security Training mandatory across the Health Board.

The final report on the BDC outage has been received and recommendations put in place to increase maintenance levels and monitoring. NWIS have produced an action plan which is agreed in the IMB and progress monitored. Any deviation from the action plan will be escalated to the SMB and if appropriate to the NHS Wales Informatics Management Board which is chaired by the Chief Executive Officer of NHS Wales and has Executive level board members. In addition, it is recommended that serious consideration should be given to identifying and funding an alternative Tier 3+ facility (in line with the NDC) to host these critical systems. WLIMS 2016 upgrade is required to address some of the technical issues experienced on the existing version. This is planned for September 2020. A re- procurement of a new Pathology Laboratory Information Management system is in progress with timescales An architecture review is underway to assess current services and make recommendations on future services (including hosting services).	Additional Comments
Current Risk Rating 4 X 5 = 20	

Risk Score Calculation

For each risk identified, the LIKELIHOOD & CONSEQUENCE mechanism will be utilised. Essentially this examines each of the risks and attempts to assess the likelihood of the event occurring (PROBABLILITY) and the effect it could have on the Health Board (IMPACT). This process ensures that the Health Board will be focusing on those risks which require immediate attention rather than spending time on areas which are, relatively, a lower priority.

Risk Matrix	LIKELIHOOD (*)				
CONSEQUENCE (**)	1 - Rare	2 - Unlikely	3 - Possible	4 - Probable	5 - Expected
1 - Negligible	1	2	3	4	5
2 - Minor	2	4	6	8	10
3 - Moderate	3	6	9	12	15
4 - Major	4	8	12	16	20
5 - Catastrophic	5	10	15	20	25
