The number of patients waiting over 12- 		

hours in ED decreased to 1,156 in August 2023 from 1,179 in July 2023.

- Unscheduled care performance has seen an improvement throughout Quarter 1 as a result of developing and implementing a new on-boarding/escalation operational policy to support more timely ambulance handovers.
- The number of emergency admissions has increased slightly in August 2023 to 4,236 from 4,070 in July 2023.

Planned Care

- August 2023 saw a 1% in-month increase in the number of patients waiting over 26 weeks for a new outpatient appointment.
- Additionally, the number of patients waiting over 36 weeks at stage 1 decreased by 3% to 6,558.

- As a Health Board, updated ministerial priority trajectories for the 2023/24 planned care position have been developed and submitted to Welsh Government and are awaiting feedback.
- Therapy waiting times have remained the same, there are 183 patients waiting over 14 weeks in August 2023, which is above the outlined trajectory.
- The number of patients waiting over 8 weeks for an Endoscopy has decreased in August 2023 to 4,415 from 4,505 in July 2023. The Endoscopy team also continue to maintain their compliance for all cancer waits.

Cancer

- July 2023 saw 49% performance against the Single Cancer Pathway measure of patients receiving definitive treatment within 62 days (measure reported a month in arrears).
- Backlog figures have seen an increase in recent weeks and are slightly above the submitted trajectory. The total backlog at 10/09/2023 was 417.

Mental Health

- Performance against the Mental Health Measures continues to be maintained. However, one of the Welsh Government targets was not achieved in July 2023.
- In July 2023, 82% of patients waited less than 26 weeks for Psychological Therapy. This was below the national target of 95%.

	<p><u>Child and Adolescent Mental Health Services (CAMHS)</u></p> <ul style="list-style-type: none"> - Access times for crisis performance has been maintained at 100% July 2023. - Updated CAMHS performance trajectories have recently been submitted to Welsh Government which show a more realistic delivery position for 2023/24. - Neurodevelopmental Disorders (NDD) access times within 26 weeks continues to be a challenge, the performance has improved to 36% in July 2023 against a target of 80%.

INTEGRATED PERFORMANCE REPORT

1. INTRODUCTION

The purpose of this report is to provide an update on current performance of the Health Board at the end of the most recent reporting window in delivering key performance measures outlined in the NHS Wales Delivery Framework and local quality & safety measures.

2. BACKGROUND

The NHS Wales Delivery Framework sets out measures under the quadruple aims which the performance of the Health Board is measured. The aims within the NHS Delivery Framework are:

- **Quadruple Aim 1:** People in Wales have improved health and well-being with better prevention and self-management
- **Quadruple Aim 2:** People in Wales have better quality and more accessible health and social care services, enabled by digital and supported by engagement
- **Quadruple Aim 3:** The health and social care workforce in Wales is motivated and sustainable
- **Quadruple Aim 4:** Wales has a higher value health and social care system that has demonstrated rapid improvement and innovation, enabled by data and focused on outcomes

In recent years, performance management against the Performance Framework targets has been undertaken by reviewing the previous months' performance, to reduce the reporting function during the COVID-19 pandemic. Welsh Government have now deemed it appropriate to move away from reporting performance against the 'Quadrants of Harm' and focus will return to providing comprehensive performance updates in line with the All-Wales Performance Management Framework 2023/24.

3. GOVERNANCE AND RISK ISSUES

Appendix 1 of this report provides an overview of how the Health Board is performing against the National Delivery measures and key local measures. Mitigating actions are listed where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery.

4. FINANCIAL IMPLICATIONS

At this stage in the financial year there are no direct impacts on the Health Board's financial bottom line resulting from the performance reported herein.

5. RECOMMENDATION:

Members are asked to:

- **NOTE** the Health Board performance against key measures and targets.

- **NOTE:** the inclusion of updated NHS Wales Performance Framework 2023/24 measures
- **NOTE:** inclusion of updated national 2023/24 recovery trajectories recently submitted to Welsh Government
- **NOTE:** Inclusion of updated UEC 2023/24 Trajectories
- **NOTE:** the development and implementation of Tumour site specific recovery plans to support Single Cancer Pathway performance recovery
- **NOTE:** Updated CAMHS performance trajectories were submitted to Welsh Government in September 2023 which reflect an achievable position in 2023/24.
- **NOTE** the actions being taken to improve performance: -
 - Updated tumour site specific action plans have been developed to support the SCP performance.
 - The cancer tracking facility will be centralised from October 2023 to support focussed tracking with a whole system approach.
 - Detailed plans being developed to maximise the productivity and efficiency of planned care capacity to maintain improvements in planned care access.
 - The Endoscopy team have implemented several actions to support future improvement, which include; administrative validation, along with an increase in endoscopist sessions which will increase weekly capacity.
 - A planned care operational performance team have recently been appointed in order to support planned care performance improvement.
 - As part of the plan to increase Orthopaedics activity, templates are consistently under review to support maximising capacity.
 - Both UEC and cancer performance remain under escalation as part of the Health Board's performance escalation framework

Emergency admissions 1. The number of emergency inpatient admissions 2. The number of emergency inpatient admissions- Hospital level 3. The number of emergency inpatient admissions (last 90 days)	In August 2023, there were 4,236 emergency admissions across the Health Board, which is 166 higher than July 2023. Singleton Hospital saw an in-month increase, with 40 more admissions (from 283 in July 2023), Morryston Hospital saw an in-month increase from 3,681 admissions in July 2023 to 3,797 admissions in August 2023.	The increased number of emergency admissions is directly linked to the pressure within the system and the reduced flow from ED – this will be addressed by the previously referenced occupancy actions

Percentage of patients waiting less than 26 weeks</p>	<p>The number of patients waiting over 26 weeks for a first outpatient appointment is still a challenge. August 2023 saw an in-month increase of 1% in the number of patients waiting over 26 weeks for an outpatient appointment. The number of breaches increased from 12,937 in July 2023 to 13,121 in August 2023. Orthopaedics has the largest proportion of patients waiting over 26 weeks for an outpatient appointment, closely followed by Ophthalmology and Gynaecology. Chart 4 shows that the number of patients waiting less than 26 weeks for an outpatient appointment, this figure has slightly deteriorated to 61%.</p>	<p>Administrative validation is currently taking place to further cleanse the waiting list position and reduce the number of patients on the waiting list inappropriately.</p> <p>Service Group specific recovery trajectories have been developed to further support recovery</p>
