# **HEALTH BOARD RISK REGISTER**

## **March 2022**

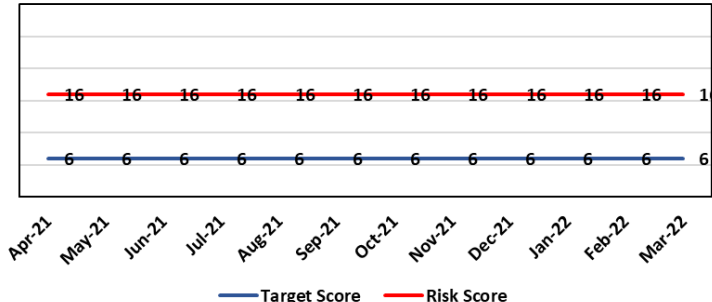

### **RISKS ASSIGNED TO THE QUALITY & SAFETY COMMITTEE**

<b>Datix ID Number: 738</b> <b>Health &amp; Care Standard: 5.1 Timely Care</b>		<b>HBR Ref Number: 1</b> <b>Target Date: 31<sup>st</sup> March 2022</b>		<b>Current Risk Rating</b> <b>5 x 5 = 25</b>																																							
<b>Objective:</b> Best Value Outcomes from High Quality Care		<b>Director Lead:</b> Inese Robotham, Chief Operating Officer <b>Assuring Committee:</b> Performance and Finance Committee <b>For information:</b> Quality & Safety Committee <b>Date last reviewed:</b> March 2022																																									
<b>Risk: Access to Unscheduled Care</b> If we fail to provide timely access to Unscheduled Care then this will have an impact on quality & safety of patient care as well as patient and family experience and achievement of targets. There are challenges with capacity/staffing across the Health and Social care sectors.																																											
<b>Risk Rating</b> (consequence x likelihood): Initial: 4 x 5 = 20 Current: 5 x 5 = 25 Target: 3 x 4 = 12	 <table><caption>Risk Score and Target Score Data</caption><thead><tr><th>Month</th><th>Target Score</th><th>Risk Score</th></tr></thead><tbody><tr><td>Apr-21</td><td>12</td><td>16</td></tr><tr><td>May-21</td><td>12</td><td>16</td></tr><tr><td>Jun-21</td><td>12</td><td>16</td></tr><tr><td>Jul-21</td><td>12</td><td>16</td></tr><tr><td>Aug-21</td><td>12</td><td>16</td></tr><tr><td>Sep-21</td><td>12</td><td>16</td></tr><tr><td>Oct-21</td><td>12</td><td>25</td></tr><tr><td>Nov-21</td><td>12</td><td>25</td></tr><tr><td>Dec-21</td><td>12</td><td>25</td></tr><tr><td>Jan-22</td><td>12</td><td>25</td></tr><tr><td>Feb-22</td><td>12</td><td>25</td></tr><tr><td>Mar-22</td><td>12</td><td>25</td></tr></tbody></table>		Month	Target Score	Risk Score	Apr-21	12	16	May-21	12	16	Jun-21	12	16	Jul-21	12	16	Aug-21	12	16	Sep-21	12	16	Oct-21	12	25	Nov-21	12	25	Dec-21	12	25	Jan-22	12	25	Feb-22	12	25	Mar-22	12	25	<b>Rationale for current score:</b> Post wave 2 of COVID 19 Morriston and Singleton have experienced a steady increase in emergency demand to pre-covid levels. Capacity is limited due to covid response and therefore remains a high risk. Current score raised due to increasing pressures	
Month	Target Score	Risk Score

Feb-22	12	25																																									
Mar-22	12	25																																									
<b>Level of Control</b> = 50%	<b>Rationale for target score:</b> Our annual plan is to implement models of care that reflect best practice. This will improve patient flow, length of stay and reduce emergency demand.																																										
<b>Date added to the HB risk register</b> 26.01.16																																											
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>																																									
<ul style="list-style-type: none"><li>Programme management office in place to improve Unscheduled Care.</li><li>Daily Health Board wide conference calls/ escalation process in place.</li><li>Regular reporting to Executive and Health Board/Quality and Safety Committee.</li><li>Increased reporting as a result of escalation to targeted intervention status.</li><li>Targeted unscheduled care investment of £8.5m in the annual plan, including a new Acute Medical Model focused on increasing ambulatory care.</li><li>Development of a Phone First for ED model in conjunction with 111 to reduce demand.</li><li>24/7 ambulance triage nurse in place</li></ul>		<b>Action</b>	<b>Lead</b>	<b>Deadline</b>																																							
		Re-establish short stay unit on ward D at Morriston	SGD (Morriston)	31/03/2022																																							
		Increase SDEC working hours and throughput of patients.	SGD (Morriston)	31/03/2022																																							
		Third phase of procurement to be undertaken to commission additional care home beds.	SGD (PCT)	31/03/2022																																							
<b>Assurances (How do we know if the things we are doing are having an impact?)</b> <ul style="list-style-type: none"><li>New Urgent &amp; Emergency Care Board to meet monthly</li></ul>		<b>Gaps in assurance (What additional assurances should we seek?)</b> The need to deliver sustained service.																																									
<b>Additional Comments</b> Zero tolerance target of 4 hours agreed. SOP in place. Currently not achieving due to Omicron surge and increased pressures at Morriston. Patient pathways that can bypass ED have been identified, but the EMD is working with WAST and SBU clinicians to maximise the number of patients receiving SDEC (Same Day Emergency Care). Acute hub relocated to TAWC as planned in December. Estates works have commenced in Enfys ward. Update 11.02.22 Action closed: Business case to take virtual wards up to 8 have been submitted to Management Board.																																											

Datix ID Number: 739		HBR Ref Number: 4		Current Risk Rating	
Health & Care Standard: 2.4 Infection Prevention & Control & Decontamination		Target Date: 31 <sup>st</sup> March 2022		4 x 5 = 20	
Objective: Best Value Outcomes from High Quality Care		Director Lead: Gareth Howells, Executive Director of Nursing			
Risk: Risk of patients acquiring infection as a result of contact with the health care system, resulting in avoidable harm, impact on service capacity, and failure to achieve national infection reduction goals.		Assuring Committee: Quality and Safety Committee			
Risk Rating (consequence x likelihood): Initial: 4 x 5 = 20 Current: 4 x 5 = 20 Target: 4 x 3 = 12		Date last reviewed: March 2022			
Level of Control = 40%		Rationale for current score: Health Board incidence of key Tier 1 infections per 100,000 population above All Wales rates, indicating Health Board's population at greater risk of infection. High occupancy rates & frequent ward moves associated with increased risk of infection transmission. Lack of decant facilities compromises environment deep cleaning & decontamination, and planned preventative maintenance programmes. Varying levels of IPC and antimicrobial stewardship responsibility embedded across all disciplines and groups. Incomplete systems for recording compliance with IPC training for all staff groups. Need improved systems to allow Delivery Groups to review compliance reports for cleanliness scores, ventilation validation/compliance, water safety, and decontamination.			
Date added to the HB risk register January 2016		Rationale for target score: Improved governance structures for IPC and antimicrobial stewardship will drive improved local ownership and embed responsibility for these priorities for all levels of staff. Adequately maintained & clean environments facilitate good IPC & minimise infection risks. Reduced occupancy & frequency of patient moves mitigate against infection transmission. Compliant ventilation systems and water safety minimise infection risks. Access to timely data on infections, training, antimicrobial stewardship, cleaning at ward/unit/practice level enables Service Groups to identify areas for focused Quality Improvement programmes, drive improvement, & effectively measure outcomes.			
Controls (What are we currently doing about the risk?)		Mitigating actions (What more should we do?)			
<ul style="list-style-type: none"><li>• Policies, procedures, protocols and guidelines supplement the National Infection Control Manual.</li><li>• Seven-day infection prevention &amp; control service provides advice and support HB staff.</li><li>• Medical microbiology &amp; infectious diseases team provides expertise and support.</li><li>• Infection Prevention &amp; Control related training provided programmes.</li><li>• Surveillance of infections, with early identification of increased incidence, and instigation of controls.</li><li>• Provision of cleaning service to meet National Standards of Cleanliness.</li><li>• Engineering controls for water safety, ventilation, and decontamination.</li></ul>		Action		Lead	Deadline
		Drive improvements in prudent antimicrobial prescribing		Cons. Antimicrobial Pharmacist	31/03/22
		Develop ward to board Dashboard on key Tier 1 infections		HoN IP&C & Digital Intelligence	31/03/22
		Achieve compliance with IPC mandatory training		Service Group Triumvirates	31/03/22
Assurances (How do we know if the things we are doing are having an impact?) <ul style="list-style-type: none"><li>• Clear Corporate and Service Group IPC Assurance Framework in place.</li></ul>		Gaps in assurance (What additional assurances should we seek?) Review single room capacity. Poor condition of hospital estate requires investment. High			

<ul style="list-style-type: none"> <li>• Ongoing monitoring of infection control rates, with weekly feedback corporately &amp; to Service Groups.</li> <li>• Infection Control Committee and Quality Priority Sub-groups receive assurance reports, monitor infection rates, and identify key actions to drive improvement. Quality Priority Sub-groups of ICC review progress of improvement actions.</li> <li>• Training compliance.</li> <li>• IPC, antimicrobial, decontamination and cleaning audit programmes.</li> <li>• Compliance and validation systems for water safety, ventilation systems and decontamination.</li> </ul>	<p>activity limits access for planned preventative maintenance and necessary HTM validation/compliance checks. Seek improved Corporate and Service Group oversight of compliance with ventilation, water safety, decontamination &amp; cleaning checks. Challenge to sustain cleaning workforce to achieve National Minimum Standards of Cleanliness. Review plans to reduce bed occupancy rates and patient multi-ward moves. Investment in ESR Self-service to provide data on IPC-related training compliance. Investment in digital intelligence systems to provide Board to Ward oversight of infection, antimicrobial, cleanliness, and training data.</p>
<p style="text-align: center;"><b>Additional Comments</b></p> <p>Update February 2022 - Three actions closed – 1. Define governance structures to support the HCAI Quality Priority. 2. Recruitment to support strengthening governance of decontamination processes. 3. Recruitment of key personnel to support improvements in antimicrobial prescribing.</p> <p>21/03/22 - IPC Improvement Plan approved in principle by Management Board on 9th March 2022, with amendments to be incorporated in next iteration. The aim is to create a guiding coalition of responsible clinical leaders (not just nursing staff) at all levels in the organisation who see the intrinsic benefits and reduction in harm from infection. Management Board IPC Improvement Plan Paper and actions attached in Documents on Datix. This will be presented at the next Infection Control Committee on 30/03/22 and is for adoption by all Service Groups.</p>	

<b>Datix ID Number: 840</b> <b>Health &amp; Care Standard: 5.1 Timely Care</b>		<b>HBR Ref Number: 16</b> <b>Target Date: 31<sup>st</sup> March 2022</b>		<b>Current Risk Rating</b> <b>5 x 4 = 20</b>																																								
<b>Objective:</b> Best Value Outcomes from High Quality Care		<b>Director Lead:</b> Inese Robotham, Chief Operating Officer <b>Assuring Committee:</b> Performance and Finance Committee <b>For information:</b> Quality & Safety Committee																																										
<b>Risk: Access and Planned Care.</b> There is a risk of harm to patients if we fail to diagnose and treat them in a timely way.		<b>Date last reviewed:</b> March 2022																																										
<div><div><b>Risk Rating</b> (consequence x likelihood): Initial: 4 x 4 = 16 Current: 5 x 4 = 20 Target: 4 x 2 = 8</div><div><b>Level of Control</b> = 90%</div><div><b>Date added to the HB risk register</b> January 2013</div></div> <div><table><caption>Risk Score and Target Score Data</caption><thead><tr><th>Month</th><th>Risk Score</th><th>Target Score</th></tr></thead><tbody><tr><td>Apr-21</td><td>25</td><td>8</td></tr><tr><td>May-21</td><td>25</td><td>8</td></tr><tr><td>Jun-21</td><td>25</td><td>8</td></tr><tr><td>Jul-21</td><td>25</td><td>8</td></tr><tr><td>Aug-21</td><td>25</td><td>8</td></tr><tr><td>Sep-21</td><td>25</td><td>8</td></tr><tr><td>Oct-21</td><td>25</td><td>8</td></tr><tr><td>Nov-21</td><td>25</td><td>8</td></tr><tr><td>Dec-21</td><td>25</td><td>8</td></tr><tr><td>Jan-22</td><td>20</td><td>8</td></tr><tr><td>Feb-22</td><td>20</td><td>8</td></tr><tr><td>Mar-22</td><td>20</td><td>8</td></tr></tbody></table></div>		Month	Risk Score	Target Score	Apr-21	25	8	May-21	25	8	Jun-21	25	8	Jul-21	25	8	Aug-21	25	8	Sep-21	25	8	Oct-21	25	8	Nov-21	25	8	Dec-21	25	8	Jan-22	20	8	Feb-22	20	8	Mar-22	20	8	<b>Rationale for current score:</b> All non-urgent activity was cancelled due to response to the Covid-19 pandemic and has increased the backlog of planned care cases across the organisation. Whilst mitigating measures such as virtual clinics have been put in place new referrals are still being accepted which is adding to the outpatient backlog particularly in Ophthalmology and Orthopaedics. The significant reduction in theatre activity during the pandemic increased the number of patients now breaching 36 and 52 week thresholds.

<b>Assurances (How do we know if the things we are doing are having an impact?)</b> <ul style="list-style-type: none"><li>Weekly meetings in place to ensure patients with greatest clinical need are treated first.</li></ul>		<b>Gaps in assurance (What additional assurances should we seek?)</b>																																										
<b>Additional Comments</b> 27/01/22: An additional ophthalmology day case theatre in Singleton will also be operational early in 2022/23. 23/02/22 – Work has commenced in cardiology, ENT, dermatology and colorectal surgery. Other areas are being developed.																																												

<b>Datix ID Number: 1514</b>		<b>HBR Ref Number: 43</b>		<b>Current Risk Rating</b>	
<b>Health &amp; Care Standard: Safe Care 2.1 Managing Risk &amp; Promoting Health &amp; Safety</b>		<b>Target Date: 31<sup>st</sup> March 2022</b>		<b>4 x 4 = 16</b>	
<b>Objective:</b> Best Value Outcomes from High Quality Care		<b>Director Lead:</b> Gareth Howells, Executive Director of Nursing			
		<b>Assuring Committee:</b> Quality and Safety Committee			
<b>Risk:</b> Due to a lack of Best Interest Assessor resource, there is a risk of failure to complete and authorise the assessments associated with Deprivation of Liberty/Liberty Protection Safeguards within the legally required timescales, exposing the health board to potential legal challenge and reputational damage.		<b>Date last reviewed:</b> March 2022			
<b>Risk Rating</b> (consequence x likelihood): Initial: 4 x 4 = 16 Current: 4 x 4 = 16 Target: 3 x 2 = 6		<b>Rationale for current score:</b> Although processes have been planned in order to reduce the breach position they have yet to be fully implemented. The impact is yet to be realised. The position will be reviewed next month.			
<b>Level of Control</b> = 40%					
<b>Date added to the HB risk register</b> July 2017					
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>			
Additional supervisory body signatories in place BIA rota now implemented but limited uptake due to inability to release staff. BIA Training undertaken for 9 nursing staff (7 within the Long Term Care Team). Able to undertake assessments utilising additional monies from WG. 1 x substantive BIA in post and additional admin post in place. DoLS database updated and DoLS dashboard in place, monitoring applications and breaches via dedicated BIAs and Admin. Delivery of DOLS Action plan reviewed monthly Regular reporting to Mental Health and Legislative Committee (MHLC) <b>Health Board presence at National and regional meetings relating to DoLS / LPS</b> <b>Increased IMCA services to support increased BIA resource</b> Additional funding received from WG to manage the backlog of DoLS assessments and implementation of LPS. <b>Current MCA practice reviewed to support MCA DoLS issues in practice</b> <b>Use of WG funding to support changes to service model.</b>		<b>Action</b>	<b>Lead</b>	<b>Deadline</b>	
		Business case for revised service model	GND Primary and Community	31/03/2022	
		Agency commissioned to support backlog of assessments	GND Primary and Community	31/03/2022	
		Overtime agreed to fund sign off from nurse assessor team to process the backlog assessments	GND Primary and Community	31/03/2022	
<b>Assurances (How do we know if the things we are doing are having an impact?)</b> Regular scrutiny at Service Group and Safeguarding Committee and by DoLS Internal Audit; monitoring via DoLS Dashboard this will provide real-time accurate data. Update report to MHLC, impact of backlog of DoLS breaches and new LPS implementation		<b>Gaps in assurance (What additional assurances should we seek?)</b>			
<b>Additional Comments</b>					
24.03.2022 update					

Agency Best Interest Assessor's (BIA) commissioned utilising welsh government funding.

Four experienced competent BIA's will begin undertaking assessments from 28th March 2022.

Weekly allocation meetings set up to track and monitor action on the backlog.

The current backlog today 24/03/22 stands at 97 referrals. It is anticipated that approximately 12 plus assessments will be completed per week.

The Dols Team Leader has arranged regular weekly coordination and allocation/peers support for each Monday morning at 10am with Liquid Personnel BIA's and will support with overseeing the Quality Assurance process required as the Supervisory Body (SB) function.

There are 6 signatories based within the Long Term Care Team that will be supporting the signatory SB functions, in focusing on clearing the Dols backlog over the subsequent months.

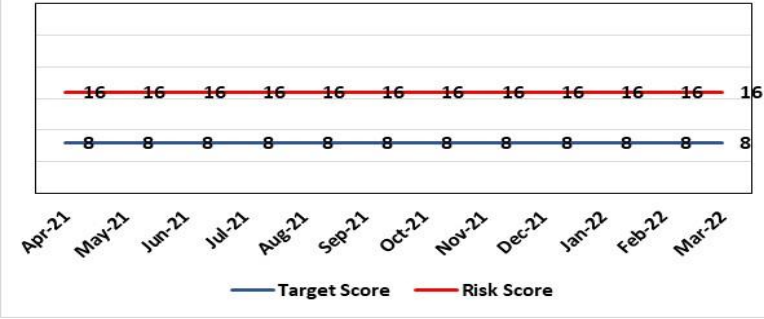

#### Additional information received from Head LPS

New legislation changes regarding Liberty Protection Safeguards (LPS) were expected in April 2022. Confirmation received from UK government December 2021 that this is to be delayed.

WG Draft code of Practice launched 17th March – 16 week consultation concludes 7th July. Health Board and regional response to be developed with LPS Head of Nursing.

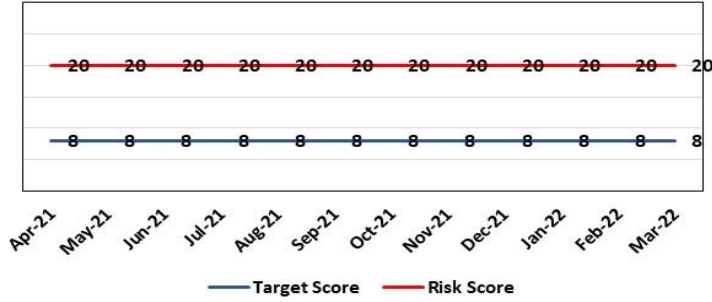

Additional funding received from WG to manage the backlog of DoLS assessments and implementation of LPS have been utilised to support training and IMCA services to address the backlog. Options for a new service model have been presented and terms of reference have been drafted for a senior working group to support this work.

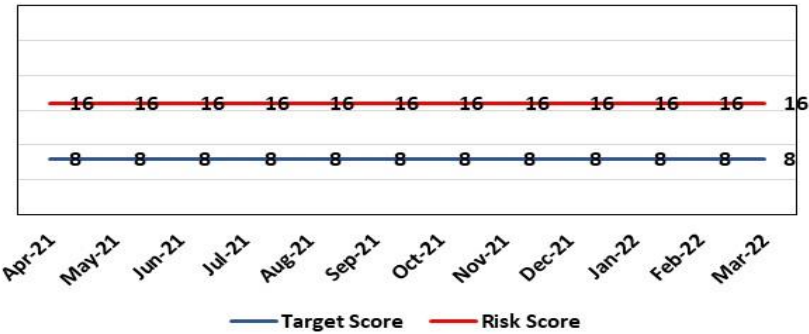

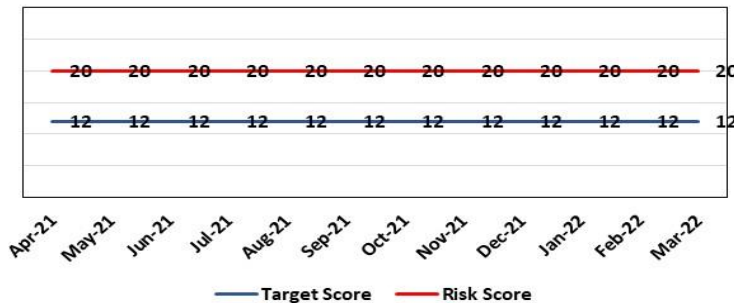

Datix ID Number: 1563 Health & Care Standard: Safe Care 5.1 Access		HBR Ref Number: 48 Target Date: 31 <sup>st</sup> March 2022		Current Risk Rating 4 x 4 = 16																																								
Objective: Best Value Outcomes from High Quality Care		Director Lead: Sian Harrop-Griffiths, Director of Strategy Assuring Committee: Performance and Finance Committee, Health Board For information: Quality & Safety Committee																																										
Risk: Failure to sustain Child and Adolescent Mental Health Services Primary & specialist CAMHS services are delivered by Cwm Taf University Health Board on behalf of the health board. The ability to sustain performance is dependent on consistency and availability of staff which due to the small numbers in the various CAMHS teams can affect achievement of waiting times significantly. <b>Objective:</b> Screening for Fetal Growth Assessment in line with Gap-Grow (G&G)		<b>Director Lead:</b> Gareth Howells, Executive Director of Nursing <b>Assuring Committee:</b> Quality and Safety Committee <b>Date last reviewed:</b> March 2022		
<b>Risk:</b> There is evidence a growth restricted/small for gestational age fetus (SGA), has an increased risk of intra-uterine death before or during the intrapartum period. Identification and appropriate management for SGA in pregnancy should lead to improved outcomes. GAP & Grow standards were implemented to contribute to the reduction of stillbirth rates in wales. Obstetric USS scan appointments are at capacity leading to delays in obtaining required appointments. In addition, the guidance from Gap & Grow is for women requiring serial scanning with a risk factor for a growth restricted baby must have 3 weekly scans from 28 to 40 week gestation. Due to the scanning capacity there are significant challenges in achieving this standard.				
<b>Risk Rating</b> (consequence x likelihood): Initial: 4 x 3 = 12 Current: 4 x 5 = 20 Target: 3 x 4 = 12			<b>Rationale for current score:</b> CSFM's leading on audit reviewing records of all women where SGA not identified in antenatal period. Scanning capacity under increasing pressure. Meeting arranged with radiology management to discuss introduction of midwife sonographer third trimester scanning. Staff to be informed to submit Datix incident where scan not available in line with standards.	
<b>Level of Control</b> = 60%			<b>Rationale for target score:</b> Compliance with Gap & Grow requirements.	
<b>Date added to the HB risk register</b> 1 <sup>st</sup> August 2019				
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>		
All staff have received training on Gap & Grow and detection of small for gestational babies. Obstetric scanning capacity across the HB is being reviewed and compliance with criteria for scanning is being monitored. Ultrasound are assisting with finding capacity wherever possible in order to meet standards for screening and complying with Gap & grow recommendations.		<b>Action</b>	<b>Lead</b>	<b>Deadline</b>
		Adherence to Gap/Grow Standards	Deputy Head of Midwifery	30/03/2022
<b>Assurances (How do we know if the things we are doing are having an impact?)</b> Audit of compliance with guidance being undertaken, detection rates of babies born below the 10th centile is being monitored via Datix and audited by the service. Ultrasound are assisting with finding capacity wherever possible in order to meet standards for screening and complying with Gap & grow recommendations.		<b>Gaps in assurance (What additional assurances should we seek?)</b>		
<b>Additional Comments</b>				
UWE course now anticipated to be completed for 2 midwives by early 2022. Business case for 2nd cohort to be completed. 28.10.21 This risk additionally going to be added to the Radiology Risk Register to acknowledge the issues identified. ML to email AS for an update as to whether we can return to pre-covid scanning. 19.11.21 Expressions of interest requested from midwives to attend January 2022 sonographer training at UWE. Training places funded by HEIW. Business case required to backfill for trainees. Further capacity issues identified due to the introduction of 30 minute fetal anomaly scans in line with ASW standards. Increased capacity gap assessed to be 20 scans per week. 14.01.22: Two midwives have commenced ultrasound training at UWE. Two midwives currently on preceptor program with an aim to achieve service delivery lists in April 2022. Resignation received from midwife sonographer trainer. Options being explored for covering 15 hours training.				

20.01.2022: Meeting with USS lead trainer and lead obstetric consultant. Concern raised of the impact of one USS machine on bot service development and training. Suggestion for all issues to be set out using a risk assessment form which will be passed to divisional manager and cc Chair of HB ultrasound group convened for development of midwife sonographer third trimester screening clinics

08.03.2022 – U/S machine on order for delivery before 31.3.22. Two midwife sonographers will provide service from the first week of April 2022.

<b>Datix ID Number:</b> 329		<b>HBR Ref Number:</b> 65		<b>Current Risk Rating</b>	
<b>Health &amp; Care Standard:</b> 3.1 Safe and Clinically Effective Care		<b>Target Date:</b> 31 <sup>st</sup> March 2022		<b>4 X 5 = 20</b>	
<b>Objective:</b> Digitally enabled Care		<b>Director Lead:</b> Gareth Howells, Executive Director of Nursing			
<b>Risk:</b> Risk associated with misinterpreting abnormal cardiotocography readings in the delivery room. A central monitoring station would enable multi-disciplinary viewing and discussion of the readings to take place, and reduce the risk of a concerning CTG trace going unidentified. Provisionally scored C4 (irrecoverable injury) x L3= 12. The central monitoring system has a facility to archive the CTG recordings: currently these tracings are only available as a paper copy, which can be lost from the maternity records. There is also a concern that the paper tracings fade over time which makes defending claims very difficult.		<b>Assuring Committee:</b> Quality & Safety Committee			
		<b>Date last reviewed:</b> March 2022			
		<b>Rationale for current score:</b> Meeting with K2, IT, finance, procurement and midwifery team on 30/09/2019. System viewed and IT needs identified. Final costing to be assessed prior to resubmission to IBG in Oct or November 2019.			
<b>Risk Rating</b> (consequence x likelihood): Initial: 4 x 4 = 16 Current: 4 x 5 = 20 Target: 4 x 2 = 8				<b>Rationale for target score:</b> Funding for central monitoring approved for 2021/22 Meeting to be arranged with provider and key stakeholders in SBU to commence the project toward installation and training.	
<b>Level of Control</b> = 50%					
<b>Date added to the HB risk register</b> 31 <sup>st</sup> December 2011					
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>			
Current controls include all staff undertaking RCOG CTG training and competency assessment. Protocol in place for an hourly "fresh eyes" on 'intrapartum CTG's' and jump call procedures. CTG prompting stickers have been implemented to correctly categorise CTG recordings. Central monitoring is also expected to strengthen the HB's position in defending claims. K2 fetal monitoring system has been identified as the best option for a central monitoring system.		<b>Action</b>		<b>Lead</b>	<b>Deadline</b>
		Business case prepared for Central monitoring system to store CTG recordings of fetal heart rate in electronic format.		Deputy Head of Midwifery	31/03/2022
<b>Assurances (How do we know if the things we are doing are having an impact?)</b> All Wales Fetal Surveillance Standards for 6hrs Fetal Surveillance Training per year		<b>Gaps in assurance (What additional assurances should we seek?)</b>			
<b>Additional Comments</b> 25.10.21 – Update – Business case completed. Awaiting update from K2 regarding when the monitoring system can be delivered as funds available through slippage funding. Update 05.11.21 – Meeting to agree costings - On completion and agreement of the action a project Board Steering Group will be set up to manage installation and training on the system 14.01.22 - Central monitoring system approved at BCAG - project board being developed. 08.03.22 - Procurement process completed. Order placed. Project board to be set up.					

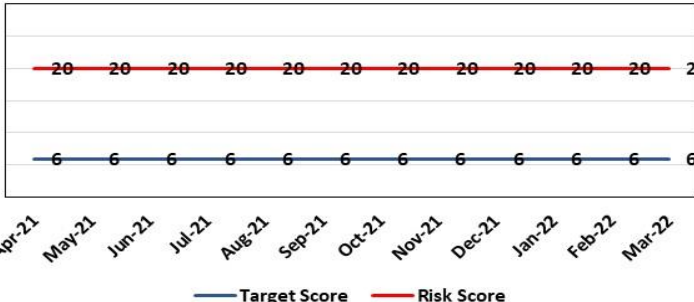

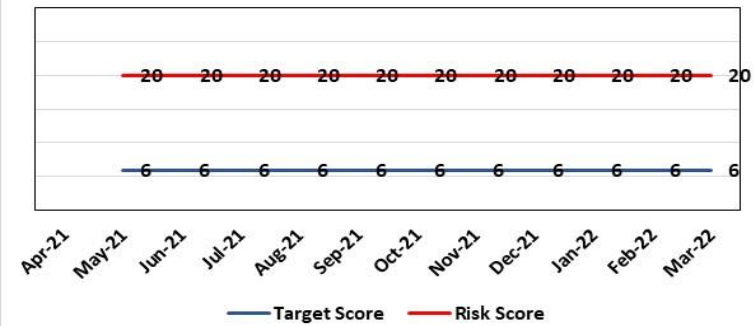

<b>Datix ID Number: 1834</b> <b>Health &amp; Care Standard: 5.1 Timely Care</b>		<b>HBR Ref Number: 66</b> <b>Target Date: 31<sup>st</sup> March 2022</b>		<b>Current Risk Rating</b> <b>5 X 4 = 20</b>
<b>Objective:</b> Best values outcomes from high quality care		<b>Director Lead:</b> Richard Evans, Executive Medical Director <b>Assuring Committee:</b> Quality and Safety Committee <b>Date last reviewed:</b> March 2022		
<b>Risk:</b> The demand & complexity of planned treatment regimes for cancer patients requiring chemotherapy currently exceed the available chair capacity, risking unacceptable delays in access to SACT treatment in Chemotherapy Day Unit with impact on targets and patient outcomes.		<b>Rationale for current score:</b> Reduced risk to 20 as plan agreed for homecare service and plan for increasing chairs going forward.		
<b>Risk Rating</b> (consequence x likelihood): Initial: 5 x 5 = 25 Current: 5 x 4 = 20 Target: 2 x 2 = 4			<b>Rationale for target score:</b> Reduced delays in treatment will reduce risk of harm.

Controls (What are we currently doing about the risk?)		Mitigating actions (What more should we do?)																																									
Safeguarding Training for Staff, Joint protocol with Cwm Taf LHB [CAMHS] currently subject to review, Local SBUHB policy on providing care to young people in this environment. This includes the requirement for all such patients on admission to be subject to Level 3 Safe and Supportive observations. Only Adolescents within 16-18 age range are admitted to the adult ward. The health board works with CAMHS to make sure that the length of stay is as short as possible.		Action The service group will review the effectiveness of current controls.		Lead MH&LD Head of Operations & Clinical Directors	Deadline End March 2022																																						
Assurances (How do we know if the things we are doing are having an impact?) Individual Rooms with en Suite Facilities, Joint working with CAMHS, Monitoring of staff training, Monitoring of admissions by the MH & LD SG legislative Committee of the HB. The ongoing issues with the risks presented by the use of this has recently been raised at an all Wales level with Welsh Government and a formal review is anticipated. The Service Group continues to flag the risk particularly in light of Ward F being identified as the SPOA for AMH in the HB which has resulted in an increase in acuity and a greater concentration of individuals who are experiencing the early crisis of admission - this has served to increase the already identified risks for young people in the environment.		Gaps in assurance (What additional assurances should we seek?)																																									
Additional Comments 01/02/2022: Risk reviewed and score remains 20. Controls are in place to mitigate this risk as far as possible. The only alternative to the current arrangement of the emergency bed for CAMHS in each Board would be to open up the tertiary centre (Ty Lydiard) for these admissions. This would require agreement across all health boards and the assessment of demand to justify costs.

<b>Objective:</b> Best Value Outcomes from High Quality Care		<b>Director Lead:</b> Gareth Howells, Executive Director of Nursing <b>Assuring Committee:</b> Quality and Safety Committee																																									
<b>Risk: Delay in Induction of Labour (IOL) or augmentation of Labour</b> Swansea Bay UHB have developed a local guideline for the management of IOL based on NICE guidance. Women are booked for IOL by a senior obstetrician either for clinical reasons (which may be for fetal or maternal factors) and for prolonged pregnancy at 41+6 when spontaneous labour has not occurred.		<b>Date last reviewed:</b> March 2022																																									
<b>Risk Rating</b> (consequence x likelihood): Initial: 4 x 4 = 16 Current: 5 x 4 = 20 Target: 2 x 3 = 6	 <table><caption>Risk Rating Data</caption><thead><tr><th>Month</th><th>Risk Score</th><th>Target Score</th></tr></thead><tbody><tr><td>Apr-21</td><td>20</td><td>6</td></tr><tr><td>May-21</td><td>20</td><td>6</td></tr><tr><td>Jun-21</td><td>20</td><td>6</td></tr><tr><td>Jul-21</td><td>20</td><td>6</td></tr><tr><td>Aug-21</td><td>20</td><td>6</td></tr><tr><td>Sep-21</td><td>20</td><td>6</td></tr><tr><td>Oct-21</td><td>20</td><td>6</td></tr><tr><td>Nov-21</td><td>20</td><td>6</td></tr><tr><td>Dec-21</td><td>20</td><td>6</td></tr><tr><td>Jan-22</td><td>20</td><td>6</td></tr><tr><td>Feb-22</td><td>20</td><td>6</td></tr><tr><td>Mar-22</td><td>20</td><td>6</td></tr></tbody></table>		Month	Risk Score	Target Score	Apr-21	20	6	May-21	20	6	Jun-21	20	6	Jul-21	20	6	Aug-21	20	6	Sep-21	20	6	Oct-21	20	6	Nov-21	20	6	Dec-21	20	6	Jan-22	20	6	Feb-22	20	6	Mar-22	20	6	<b>Rationale for current score:</b> 15 linked records since January 2021 where IOL was placed on hold. No significant poor outcomes resulted from the cases identified in the linked records. The IOL is booked and it is anticipated this should take place as planned within the standards set. However, for reasons of acuity in either maternity services or neonatal services, admission for IOL, continuation of IOL that has commenced or augmentation of labour is not possible.

<b>Level of Control</b> = 60%			<b>Rationale for target score:</b>																																								
<b>Date added to the HB risk register</b> 30 <sup>th</sup> April 2021																																											
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>																																									
<p>Diary is maintained for booking of IOL with agreed numbers of IOL per day. Daily obstetric consultant ward round to review all women undergoing IOL. Ongoing/regular monitoring by cardiotocograph for fetal wellbeing. Labour ward coordinator and labour ward obstetric lead ensure women on ward 19 for IOL are factored into daily planning of workload on labour ward. If IOL's/ Augmentation of labour are put on hold/delayed the women are reviewed by the MDT to assess for any potential risk to mother or baby. The MDT (Obstetric, Neonatal and Midwifery) discuss and consider the impact of delay for each woman. Escalation to the appropriate senior staff takes place and the Escalation Policy is implemented.</p> <p>Daily acuity is gathered and sent to the senior midwifery management team who can anticipate potential problems and support the clinical team. The matron of the unit is contacted in office hours and the senior midwife manager on call is contacted out of hours. The senior midwife will review staffing across all areas and deploy staff if possible including the specialist midwives and the community midwifery on call team. Neighbouring maternity units are contacted to ask if they are able to support by accepting the transfer of women.</p>		<b>Action</b>	<b>Lead</b>	<b>Deadline</b>																																							
		Ongoing review of risk	Head of Midwifery	30/03/2022																																							
<b>Assurances (How do we know if the things we are doing are having an impact?)</b> Review of midwifery staffing on ward 19 (antenatal ward), during recent birthrate plus assessment. This will ensure women receive effective midwifery support and reassurance of fetal wellbeing.		<b>Gaps in assurance (What additional assurances should we seek?)</b>																																									
<b>Additional Comments</b> 28.10.21 Update - This was reviewed on 27.10.21 with NT & CW. If any delays for transfer to LW this is incident reported and reviewed. 19.11.21 Critical midwifery staffing levels have had a severe impact on the ability of the team to transfer women to labour ward in a timely manner. See Critical Staffing Risk (ID 2788) for mitigation. 14.01.22 No change. 08.03.22 - To continue to monitor all IOL delays to identify any harm caused. Recruitment of Band 6 midwives underway. Introducing NICE guidelines for IOL (being managed by AN Forum). Working with NN to ensure capacity issues for maternity & NN services are managed appropriately.

<b>Level of Control</b> = %	<b>Rationale for current score:</b> Centralisation of community services has broken down continuity of carer which means women will see many midwives through pregnancy. There is evidence that shows the outcome for women is better with lower interventions when continuity of carer is maintained. This is particularly relevant for women with perinatal mental health issues and for safeguarding. Singleton Hospital working with on average 10 /11 midwives w/c 22/08/2021. The lowest staffing number being 8 instead of 13 midwives.																																										
<b>Date added to the risk register</b> 12/10/2021	<b>Rationale for target score:</b> Target score refreshed. Actions taken and planned for December are anticipated to reduce risk to a target score of 16 by the end December. The decentralization of services in Q4 may assist to reduce the risk further. A new target for additional reduction of the risk will be considered in January.																																										
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>																																									
<ul style="list-style-type: none"><li>• Home births are suspended. <b>Risk:</b> Cardiac Surgery – A Getting It Right First Time review identified concerns in respect of cardiac surgery (including patient pathway/process issues) that present risks to ensuring optimal outcomes for all patients. Potential consequences include the outlier status of the health board in respect of quality metrics, including mortality following mitral valve surgery and aortovascular surgery. This has resulted in escalation of the service by WHSSC.		<b>Date last reviewed:</b> March 2022			
<b>Risk Rating</b> (consequence x likelihood): Initial: 5 x 5 = 25 Current: 4 x 4 = 16 Target: 4 x 3 = 12					
<b>Level of Control</b> = %					
<b>Date added to the risk register</b> March 2022					
<b>Controls (What are we currently doing about the risk?)</b>		<b>Mitigating actions (What more should we do?)</b>			
<ul style="list-style-type: none"><li>Invited Service Review by Royal College of Surgeons to advise on outcomes, good practice and areas for improvement;</li><li>Implementation of local action plan to address areas of concern; widespread engagement among clinicians in the department.</li><li>All surgery is now only undertaken by consultants and mitral valve repair surgery is undertaken by two mitral valve specialists; a third consultant undertakes mitral valve replacements as agreed with WHSSC.</li><li>Complex heart valve MDT established to make decisions on appropriate surgery including MV repair and MV replacement and to direct to the appropriate consultant.</li><li>Internal review of deaths following mitral valve surgery.</li><li>High Risk MDT implemented, outcome decision documented on Solus.</li><li>Dual surgeon operating mandated for complex cases (determined by the MDT) to improve outcomes.</li><li>MDT discussion to be undertaken for all patients who develop deep sternal wound infections.</li><li>Quality &amp; Outcomes database established capture case outcome metrics in real time.</li></ul>		<b>Action</b>		<b>Lead</b>	<b>Deadline</b>
		Implementation of local improvement plan targeting areas of concern and implementing actions to reduce variation		Executive Medical Director	30/04/2022
		Commission an Invited Review of Service with support from Royal College of Surgeons		Executive Medical Director	31/03/2022
<b>Assurances (How do we know if the things we are doing are having an impact?)</b>		<b>Gaps in assurance (What additional assurances should we seek?)</b>			
<ul style="list-style-type: none"><li>An improvement plan has been developed in conjunction with WHSSC and agreed. Progress is monitored by Gold Command arrangements.</li><li>Quality &amp; Outcomes database established capture case outcome metrics..</li></ul>		Assurance sought via RCS Invited Review on outcomes and governance in the department			

**Additional Comments**

The Royal College of Surgeons have confirmed they will undertake a review of the service in 28 – 30<sup>th</sup> March 2022.  
WHSSC have de-escalated the service to Stage 3 following an agreed pathway for aorta-vascular cases.

### Risk Score Calculation

For each risk identified, the LIKELIHOOD & CONSEQUENCE mechanism will be utilised. Essentially this examines each of the risks and attempts to assess the likelihood of the event occurring (PROBABILITY) and the effect it could have on the Health Board (IMPACT). This process ensures that the Health Board will be focusing on those risks which require immediate attention rather than spending time on areas which are, relatively, a lower priority.

Risk Matrix	LIKELIHOOD (*)				
	1 - Rare	2 - Unlikely	3 - Possible	4 - Probable	5 - Expected
CONSEQUENCE (**)					
1 - Negligible	1	2	3	4	5
2 - Minor	2	4	6	8	10
3 - Moderate	3	6	9	12	15
4 - Major	4	8	12	16	20
5 - Catastrophic	5	10	15	20	25
