Meeting Date	26th January 2020	Agenda Item	3.1
Report Title	Quality & Safety Performance Report		
Report Author	Hannah Roan, Head of Performance & Commissioning (interim)		
Report Sponsor	Darren Griffiths, Director of Finance and Performance (interim)		
Presented by	Darren Griffiths, Director of Finance and Performance (interim)		
Freedom of Information	Open		
Purpose of the Report	The purpose of this report is to provide an update on the current performance of the Health Board at the end of the most recent reporting window in delivering key local performance measures as well as the national measures outlined in the 2020/21 NHS Wales Delivery Framework.		
Key Issues	<p>The Integrated Performance Report is a routine report that provides an overview of how the Health Board is performing against the National Delivery measures and key local quality and safety measures. The traditional format for the report includes identifying actions where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery. However, due to the operational pressures within the Health Board relating to the COVID-19 pandemic, it was agreed that the narrative update would be omitted from this iteration of the performance report.</p> <p>From the 1st April 2020, RAG'ing has not been applied to the targeted intervention priorities as the profiles were based on the actions within the 2020/21 annual plan which are now not being progressed due to the COVID-19 pandemic. In the absence of local profiles, in-month movement will now be utilised as the basis of RAGing for these measures until revised profiles are received. However, this is unlikely to happen until the pandemic has subsided and services start to return to a new level of normality.</p> <p>Key high level issues to highlight this month are as follows:</p> <p>COVID19- December 2020 saw a significant rise in the number of positive COVID19 cases and consequently an increase in admissions into hospital. The occupancy rate in both general medical beds and critical care beds for new and recovering COVID patients was very high in December 2020 resulting in significant pressure on the entire secondary care system.</p>		

	<p>Unscheduled Care- Demand for emergency department care within Swansea Bay University (SBU) Health Board reduced in December 2020. However, the percentage of patients seen within 4 hours in A&E and the number of patients waiting over 12 hours both deteriorated in December 2020, as well as the number of ambulance to hospital delays over 1 hour.</p> <p>Planned Care- December 2020 was the first month in 2020/21 to see an in-month reduction in the number of patients waiting over 36 weeks. However, the in-month reduction may be the result of the dip in the number of primary care referrals received during the first COVID19 wave in April and May 2020. Diagnostics and Therapy waiting times have significantly increased since March 2020 however, the number of patients waiting over target reduced again in December 2020 with some therapy services maintaining a nil breach position (i.e. Occupational Therapy and Physiotherapy).</p> <p>Cancer- November 2020 was the last month that the traditional 31 day (NUSC) and 62 day (USC) cancer access targets were to be reported at a national level. The Single Cancer Pathway measure of patients receiving definitive treatment within 62 days is the only national measure that the Health Board now needs to report. The charts within this report have been amended to reflect the change in reporting and will be refined over the next few months to ensure that the most meaningful data is reported. December's figures are in the process of being validated at the time of writing this report.</p> <p>Mental Health- performance against the Mental Health Measures continues to be maintained and all targets were achieved in November 2020. Psychological therapies access times achieved of 100% against the 95% target in November 2020.</p> <p>Child and Adolescent Mental Health Services (CAMHS)-Access times for routine and specialist CAMHS continue to be a challenge and were below target again in November 2020. This is due to an increase in demand and a reduction in capacity with staffing levels continuing to be low. Crisis waiting times and access to therapeutic interventions continue to be 100%.</p> <p>Healthcare Acquired Infections- In December 2020, Klebsiella was the only category of healthcare acquired infections that was above the Health Board's internal reduction profile.</p> <p>Serious Incidents closures- Performance against the 80% target was 4% in December 2020 as only 1 of the 27 closure forms due to be submitted to Welsh Government were submitted on time.</p>

QUALITY & SAFETY PERFORMANCE REPORT

1. INTRODUCTION

The purpose of this report is to provide an update on current performance of the Health Board at the end of the most recent reporting window in delivering key performance measures outlined in the 2020/21 NHS Wales Delivery Framework and local quality & safety measures.

2. BACKGROUND

The 2020/21 NHS Wales Delivery Framework sets out the 78 measures under the quadruple aims which the performance of the Health Board is measured. The aims within the NHS Delivery Framework are:

- **Quadruple Aim 1:** People in Wales have improved health and well-being with better prevention and self-management
- **Quadruple Aim 2:** People in Wales have better quality and more accessible health and social care services, enabled by digital and supported by engagement
- **Quadruple Aim 3:** The health and social care workforce in Wales is motivated and sustainable
- **Quadruple Aim 4:** Wales has a higher value health and social care system that has demonstrated rapid improvement and innovation, enabled by data and focused on outcomes

The Health Board's performance reports have traditionally been structured according to the aims within the NHS Delivery Framework however, the focus for NHS Wales reporting has shifted to harm management as a consequence of the COVID-19 pandemic. In order to improve the Health Board's visibility of measuring and managing harm, the structure of this report has been aligned with the four quadrants of harm as set out in the NHS Wales COVID-19 Operating Framework and the Health Board's Q2 Operational Plan. The harm quadrants are illustrated in the following diagram.

Harm from Covid itself	Harm from overwhelmed NHS and social care system
Harm from reduction in non-Covid activity	Harm from wider societal actions/lockdown

Appendix 1 provides an overview of the Health Board's latest performance against the Delivery Framework measures along with key local quality and safety measures. A number of local COVID-19 specific measures have been included in this iteration of the performance report and further work will be undertaken over the next quarter to introduce additional measures that will aid in measuring harm in the system.

The traditional format for the report includes identifying actions where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery. However, due to the operational pressures within the

Health Board relating to the COVID-19 pandemic, it was agreed that the narrative update would be omitted from this performance report until operational pressures significantly ease. Despite a reduction in the narrative contained within this report, considerable work has been undertaken to include additional measures that aid in describing how the healthcare systems has changed as a result of the pandemic.

3. GOVERNANCE AND RISK ISSUES

Appendix 1 of this report provides an overview of how the Health Board is performing against the National Delivery measures and key local measures. Mitigating actions are listed where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery.

4. FINANCIAL IMPLICATIONS

At this stage in the financial year there are no direct impacts on the Health Board's financial bottom line resulting from the performance reported herein.

5. RECOMMENDATION

Members are asked to:

- **NOTE-** current Health Board performance against key measures and targets

Governance and Assurance		
Link to Enabling Objectives (please choose)	Supporting better health and wellbeing by actively promoting and empowering people to live well in resilient communities	
	Partnerships for Improving Health and Wellbeing	<input checked="" type="checkbox"/>
	Co-Production and Health Literacy	<input checked="" type="checkbox"/>
	Digitally Enabled Health and Wellbeing	<input checked="" type="checkbox"/>
	Deliver better care through excellent health and care services achieving the outcomes that matter most to people	
	Best Value Outcomes and High Quality Care	<input checked="" type="checkbox"/>
	Partnerships for Care	<input checked="" type="checkbox"/>
	Excellent Staff	<input checked="" type="checkbox"/>
	Digitally Enabled Care	<input checked="" type="checkbox"/>
	Outstanding Research, Innovation, Education and Learning	<input checked="" type="checkbox"/>
Health and Care Standards		
(please choose)	Staying Healthy	<input checked="" type="checkbox"/>
	Safe Care	<input checked="" type="checkbox"/>
	Effective Care	<input checked="" type="checkbox"/>
	Dignified Care	<input checked="" type="checkbox"/>
	Timely Care	<input checked="" type="checkbox"/>
	Individual Care	<input checked="" type="checkbox"/>
	Staff and Resources	<input checked="" type="checkbox"/>
Quality, Safety and Patient Experience		
<p>The performance report outlines performance over the domains of quality and safety and patient experience, and outlines areas and actions for improvement. Quality, safety and patient experience are central principles underpinning the National Delivery Framework and this report is aligned to the domains within that framework.</p> <p>There are no directly related Equality and Diversity implications as a result of this report.</p>		
Financial Implications		
At this stage in the financial year there are no direct impacts on the Health Board's financial bottom line resulting from the performance reported herein.		
Legal Implications (including equality and diversity assessment)		
A number of indicators monitor progress in relation to legislation, such as the Mental Health Measure.		
Staffing Implications		
A number of indicators monitor progress in relation to Workforce, such as Sickness and Personal Development Review rates. Specific issues relating to staffing are also addressed individually in this report.		

Long Term Implications (including the impact of the Well-being of Future Generations (Wales) Act 2015)

The '5 Ways of Working' are demonstrated in the report as follows:

- **Long term** – Actions within this report are both long and short term in order to balance the immediate service issues with long term objectives. In addition, profiles have been included for the Targeted Intervention Priorities for 2019/20 which provides focus on the expected delivery for every month as well as the year end position in March 2020.
- **Prevention** – the NHS Wales Delivery framework provides a measureable mechanism to evidence how the NHS is positively influencing the health and well-being of the citizens of Wales with a particular focus upon maximising people's physical and mental well-being.
- **Integration** – this integrated performance report brings together key performance measures across the seven domains of the NHS Wales Delivery Framework, which identify the priority areas that patients, clinicians and stakeholders wanted the NHS to be measured against. The framework covers a wide spectrum of measures that are aligned with the Well-being of Future Generations (Wales) Act 2015.
- **Collaboration** – in order to manage performance, the Corporate Functions within the Health Board liaise with leads from the Service Groups as well as key individuals from partner organisations including the Local Authorities, Welsh Ambulance Services Trust, Public Health Wales and external Health Boards.
- **Involvement** – Corporate and Service Groups leads are key in identifying performance issues and identifying actions to take forward.

Report History	The last iteration of the Quality & Safety Performance Report was presented to Quality & Safety committee in December 2020. This is a routine monthly report.

	Page numbers:
1. <u>OVERVIEW – KEY PERFORMANCE INDICATORS SUMMARY</u>	11
2. <u>QUADRANTS OF HARM SUMMARY</u>	12
3. HARM QUADRANT- HARM FROM COVID ITSELF	
3.1 <u>Overview</u>	13
3.2 Updates on key measures:	14
• <u>COVID cases and Testing</u>	15
• <u>Staff absence due to COVID</u>	
4. HARM QUADRANT- HARM FROM OVERWHELMED NHS AND SOCIAL CARE SYSTEM	
4.1 <u>Overview</u>	16-19
4.2 Updates on key measures:	
• <u>Unscheduled care</u>	20-27
• <u>Fractured Neck of Femur (#NOF)</u>	28-29
• <u>Healthcare Acquired Infections</u>	30-32
• <u>Pressure Ulcers</u>	32
• <u>Serious Incidents</u>	33
• <u>Inpatient Falls</u>	34
• <u>Discharge Summaries</u>	34
• <u>Crude Mortality</u>	35
5. HARM QUADRANT- REDUCTION IN NON-COVID ACTIVITY	
5.1 <u>Overview</u>	36-37
5.2 <u>Primary and Community Care Overview</u>	
5.3 Updates on key measures:	38
• <u>Planned care</u>	39-43
• <u>Cancer</u>	44-46

• Follow-up appointments	47
• Patient Experience	48
• Complaints	49
 6. HARM QUADRANT- HARM FROM WIDER SOCIETAL ACTIONS/ LOCKDOWN	
6.1 Overview	50-52
6.2 Updates on key measures:	
• Adult Mental Health	53
• Child and Adolescent Mental Health	54
 APPENDIX 2: SUMMARY OF KEY MEASURES BY SERVICE GROUP	55-58
 APPENDIX 3: INTEGRATED PERFORMANCE DASHBOARD	59-63

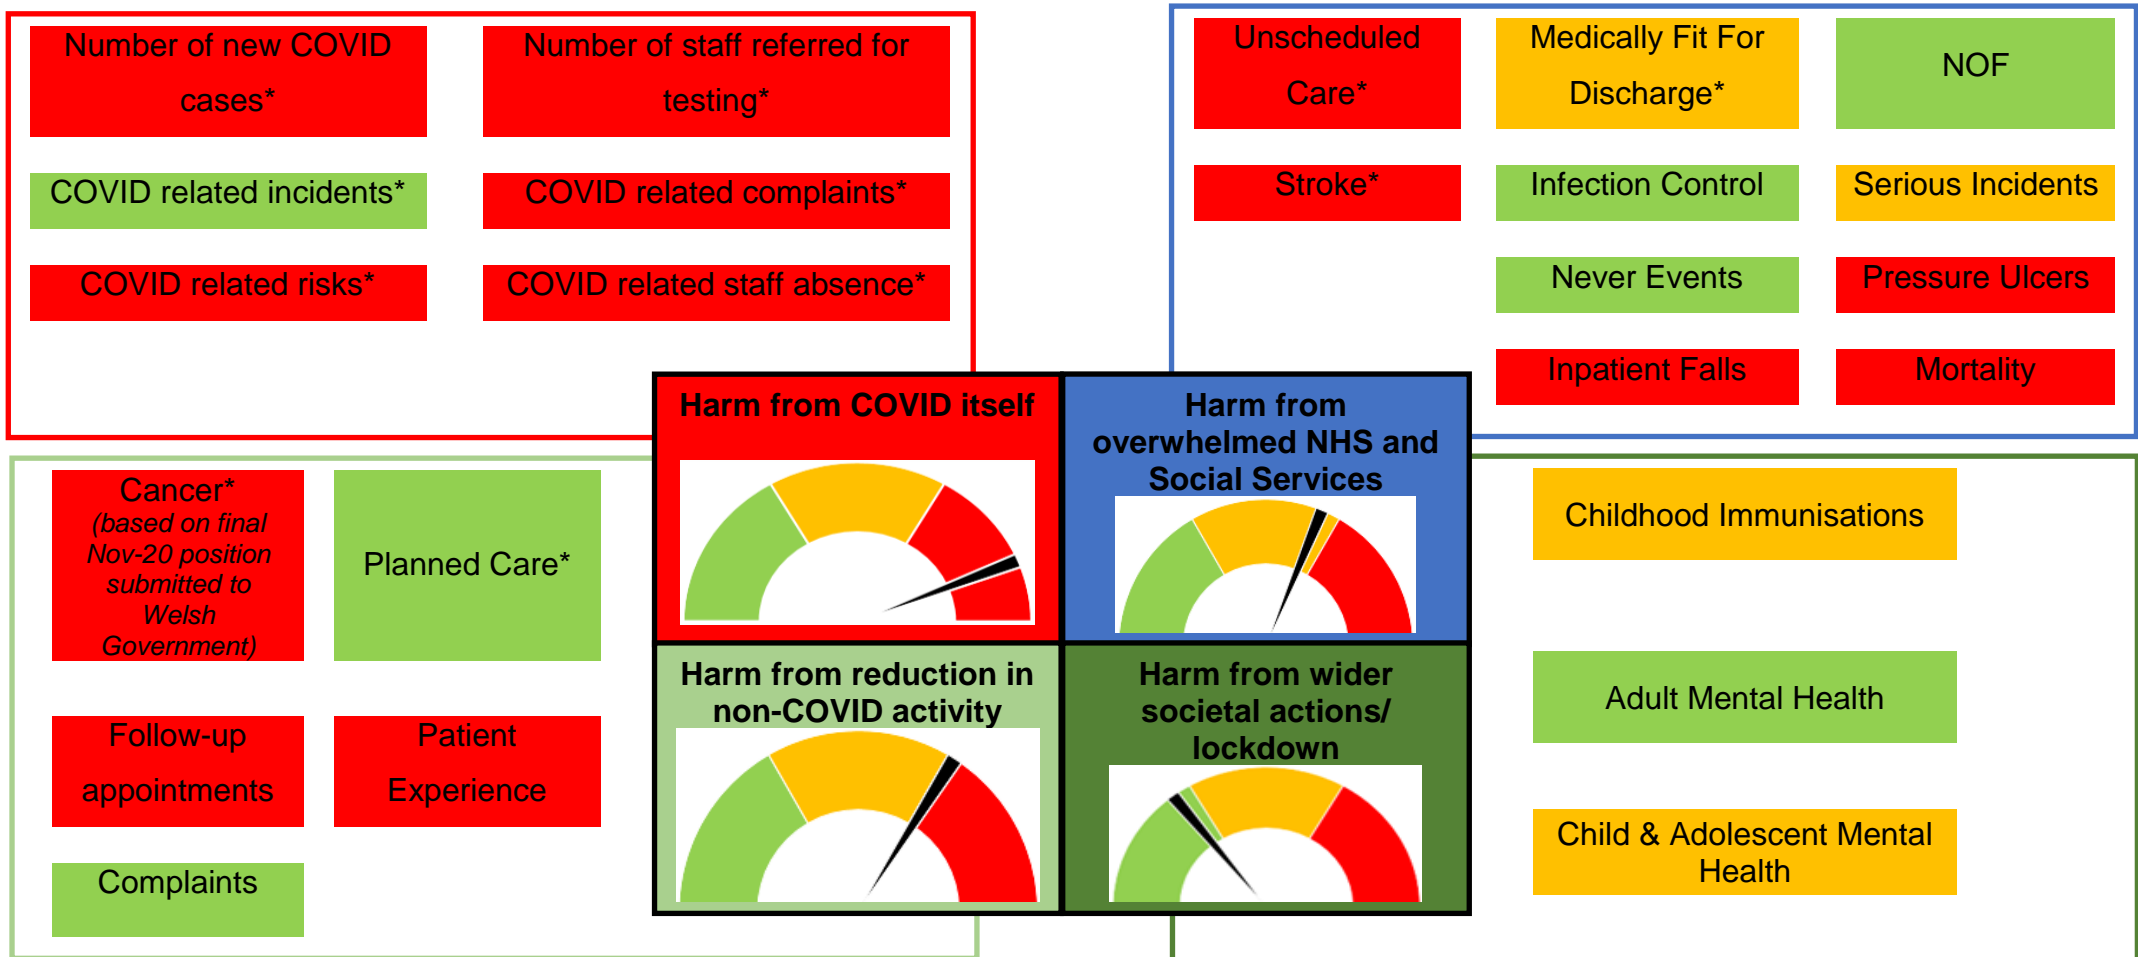

1. OVERVIEW- KEY PERFORMANCE INDICATORS SUMMARY

Key messages for consideration of the committee arising from the detail in this report below are:-

- Q&S report detail is reduced to reflect data capture currently available.
- Adult Mental health access performance remains excellent and Psychological Therapy performance continues to be over target, achieving 100% in November 2020. CAMHS access to assessments continues to be significantly below target to increased demand and reduced capacity.
- Demand on unscheduled care system reduced in December 2020 however, performance deteriorated against the 4 and 12 hour A&E access targets as well as ambulance handover delays.
- Planned care system is still challenging, especially for treatment within 36 weeks, however the rate at which the size of the waiting list is increasing appears to be slowing down. December 2020 saw a reduction in the number of patients waiting over 36 weeks however, it is likely that this is due to the dip in referrals received in April and May 2020 during the first wave of COVID19. Although there are a significant number of patients waiting over target for diagnostics and therapies, the number of breaches continues to reduce month on month.
- New measures are included in the report to reflect the change in national cancer reporting from December 2020. The Single Cancer Pathway (SCP) is now the focus with patients receiving definitive treatment within 62 days regardless of referral route. Referrals from GPs account for around 86% of all suspected cancer referrals and the number of monthly referrals are returning to pre-Covid levels. This is resulting in an increase in the backlog of patients waiting more than 63 days and a worsening projected position for the SCP target for December 2020.
- *C.difficile* continues to reduce and was below the internal reduction profile in December 2020. However, there were 12 cases of Klebsiella in December 2020 which was double the internal profile of 6 cases. All other categories of healthcare acquired infections were on, or below, target in December 2020.
- Concerns response performance reduced in October 2020 to 75%. The number of formal complaints received has increased and is nearing pre-COVID levels.
- The number of Friends & Family surveys completed significantly reduced in December 2020 and the overall recommendation rate was 77% against an internal target of 90%.
- Serious Incident (SI) numbers have reduced. SI closure performance remained poor in December 2020 (4%)
- The last new Never Event was recorded in November 2020.
- Fractured neck of femur performance in October 2020 continues to be broadly at Welsh National levels (see detail below) and showing an improved position compared with October 2019.

2. QUADRANTS OF HARM SUMMARY

The following is a summary of all the key performance indicators included in this report.

NB- RAG status is against national or local target

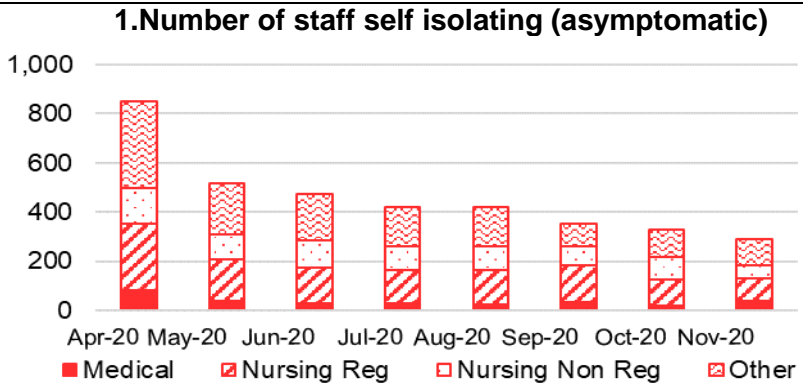

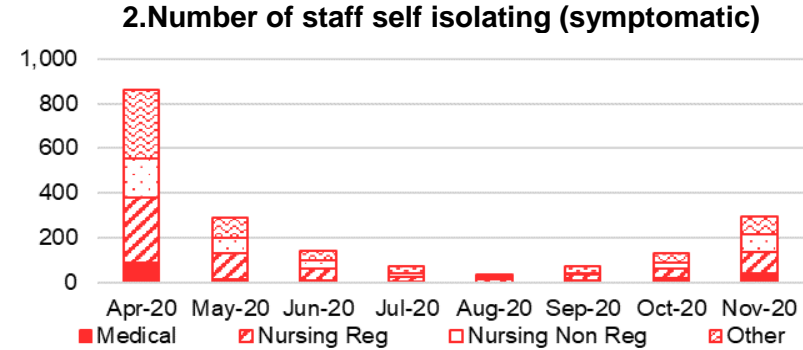

** Data not available

*RAG status based on in-month movement in the absence of local profiles

3. HARM QUADRANT- HARM FROM COVID ITSELF

COVID RELATED STAFF ABSENCE									
Description	Current Performance	Trend							
Staff absence due to COVID19 1.Number of staff self isolating (asymptomatic) 2.Number of staff self isolating (symptomatic) 3.% staff sickness	The following data is based on the mid-month position and broken down into the categories requested by Welsh Government.	1.Number of staff self isolating (asymptomatic)							
	1. & 2. Number of staff self-isolating (asymptomatic and symptomatic) Between October and November 2020, the number of staff self-isolating (asymptomatic) reduced from 329 to 291 however, the number of staff self-isolating (symptomatic) increased from 132 to 294. In November 2020, “other” staff had the largest number of self-isolating staff who are asymptomatic and Registered Nursing had the largest number of symptomatic self-isolating staff.								
	3. % Staff sickness The percentage of staff sickness absence due to COVID-19 has significantly reduced from 13.2% in April 2020 to 4.4% in November 2020. However, the percentage of staff sickness has increased every month since September 2020.	2.Number of staff self isolating (symptomatic) 							
		3.% staff sickness

UNSCHEDULED CARE																																																									
Description	Current Performance																																																								
Critical Care-Delayed Transfers of Care (DTCO)-Morriston Hospital 1.Total Critical Care delayed discharges (hours) 2. Average lost bed days per day 3.Percentage of patients delayed: <ul style="list-style-type: none">Up to 8 hoursBetween 8 and 24 hoursOver 24 hours	<p>In December 2020, there were a total of 82 admissions into the Intensive Care Unit (ICU) in Morriston Hospital. During the COVID19 first wave in April and May 2020, the amount of delayed discharges and average lost bed days significantly reduced however this number has been steadily increasing since June 2020. In December 2020, delayed discharges totalled 1,014 hours and the average lost bed days was 1.36 per day. The percentage of patients delayed over 24 hours increased from 33.96% in November 2020 to 38.78% in December 2020.</p>

UNSCHEDULED CARE		
Description	Current Performance	Trend
Medically Fit <i>The number of patients waiting at each site in the Health Board that are deemed discharge/ medically fit</i>	<p>In December 2020, there were on average 138 patients who were deemed medically/ discharge fit but were still occupying a bed in the Health Board's Hospitals.</p> <p>The number of medically/ discharge fit patients has risen every month since June 2020, however November 2020 was the first month to see an in-month reduction. This reduction carried on into December with an in-month reduction of 1% (from 139 in November 2020 to 138 in December 2020).</p> <p>In December 2020, Morriston Hospital had the largest proportion of medically/ discharge fit patients with 56 out of 138 followed by Singleton with 39.</p>	<p>The number of discharge/ medically fit patients by site</p> <p>*Consistent data capture for Gorseinon not available before April 2020</p>
Elective procedures cancelled due to lack of beds <i>The number of elective procedure cancelled across the hospital where the main cancellation reasons was lack of beds</i>	<p>In December 2020, there was 1 elective procedure cancelled due to lack of beds on the day of surgery. This is 92 less cancellation than in November 2020 (from 13 to 1).</p> <p>In December, the 1 cancelled procedure was attributed to Morriston Hospital.</p>	<p>Total number of elective procedures cancelled due to lack of beds</p>

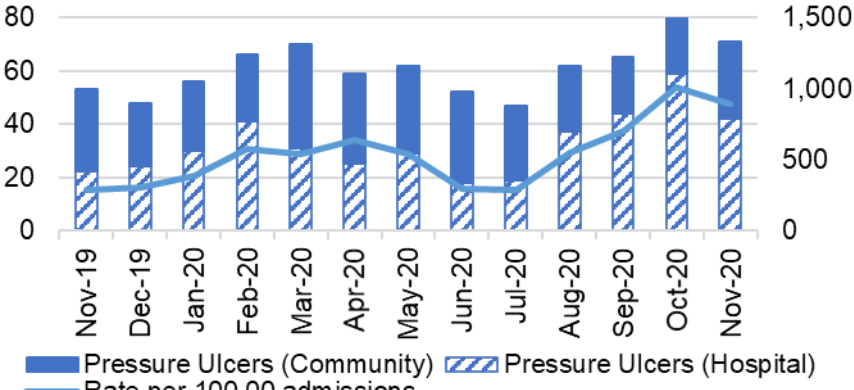

FRACTURED NECK OF FEMUR (#NOF)

HARM FROM REDUCTION IN NON-COVID ACTIVITY

5.2 Primary and Community Care Overview

Chart 1: Number of patients receiving care from Eye Health Examination Wales (EHEW)

No claims submitted between April and August 2020

Chart 5: Number and percentage of adult dental patients re-attending NHS Primary Dental Care between 6-9 months

Chart 2: Common Ailment Scheme - Number of consultations provided

Chart 3: Urgent Dental Centre- Total episodes of patient care

Chart 4: General Dental Practice activity- Total number of telephone calls received

Chart 6: Pregnancy Advisory Service- Referral to appointment within 5 days and treatment within 10 days

Chart 7: Sexual health services- Attendances at sexual health ambulance

Chart 8: Sexual health services- Patient outcomes

Chart 9: District Nursing- Number of patients on caseload

Chart 10: District Nursing- Total number of contacts

Chart 11: Community wound clinic- Number of attendances and number of home visits

Chart 12: Community wound clinic- Number of assessments by location

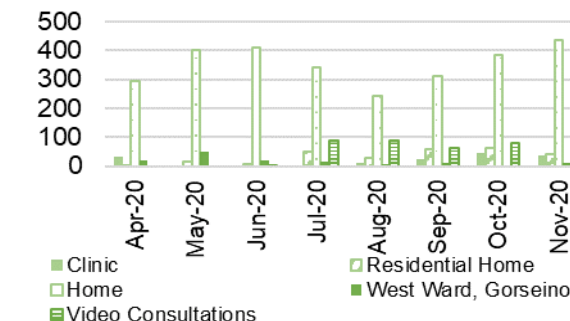

Chart 13: % of patients with a RTT (referral to stage 1) of 26 weeks or less for Restorative Dentistry

Chart 14: Audiology- Number of remote consultations

Chart 15: Audiology- Total number of patients on the waiting list

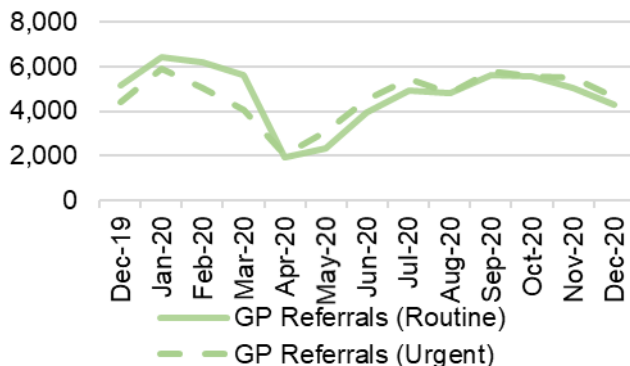

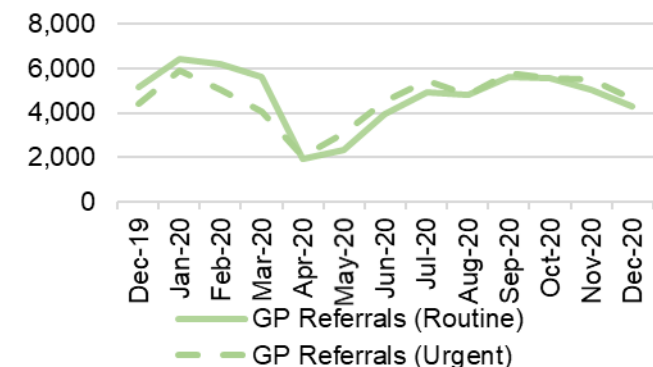

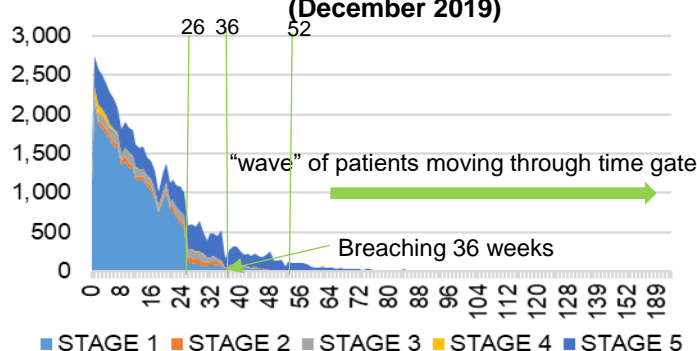

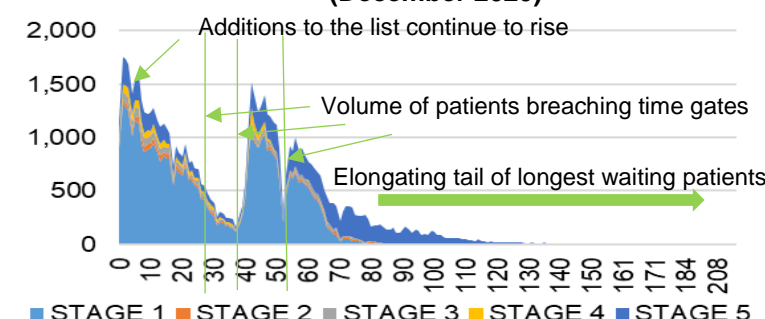

Chart 16: Audiology- Number of postal hearing aid repairs

5.2 Updates on key measures

PLANNED CARE	
Description	Current Performance
Referrals and shape of the waiting list	The number of GP referrals and additions to the outpatient waiting list increased each month since May 2020, this is reflected in the reduction in the size of the waiting list in April 2020 and subsequent increase every month since May 2020. However, since September 2020 the number of referrals and additions to the waiting list appear to have stabilised. Chart 4 shows the shape of the waiting list and the second wave that has formed at the beginning of the waiting list as GP referrals start to pick back up.
1. GP Referrals <i>The number of Stage 1 additions per week</i>	Trend
2. Stage 1 additions <i>The number of new patients that have been added to the outpatient waiting list</i>	
3. Size of the waiting list <i>Total number of patients on the waiting list by stage as at December 2019</i>	<p>1. Number of GP referrals received by SBU Health Board</p>  <p>2. Number of GP referrals received by SBU Health Board</p>  <p>3. Total size of the waiting list and movement (December 2019)</p>  <p>4. Total size of the waiting list and movement (December 2020)</p> 
4. Size of the waiting list <i>Total number of patients on the waiting list by stage as at December 2020</i>	

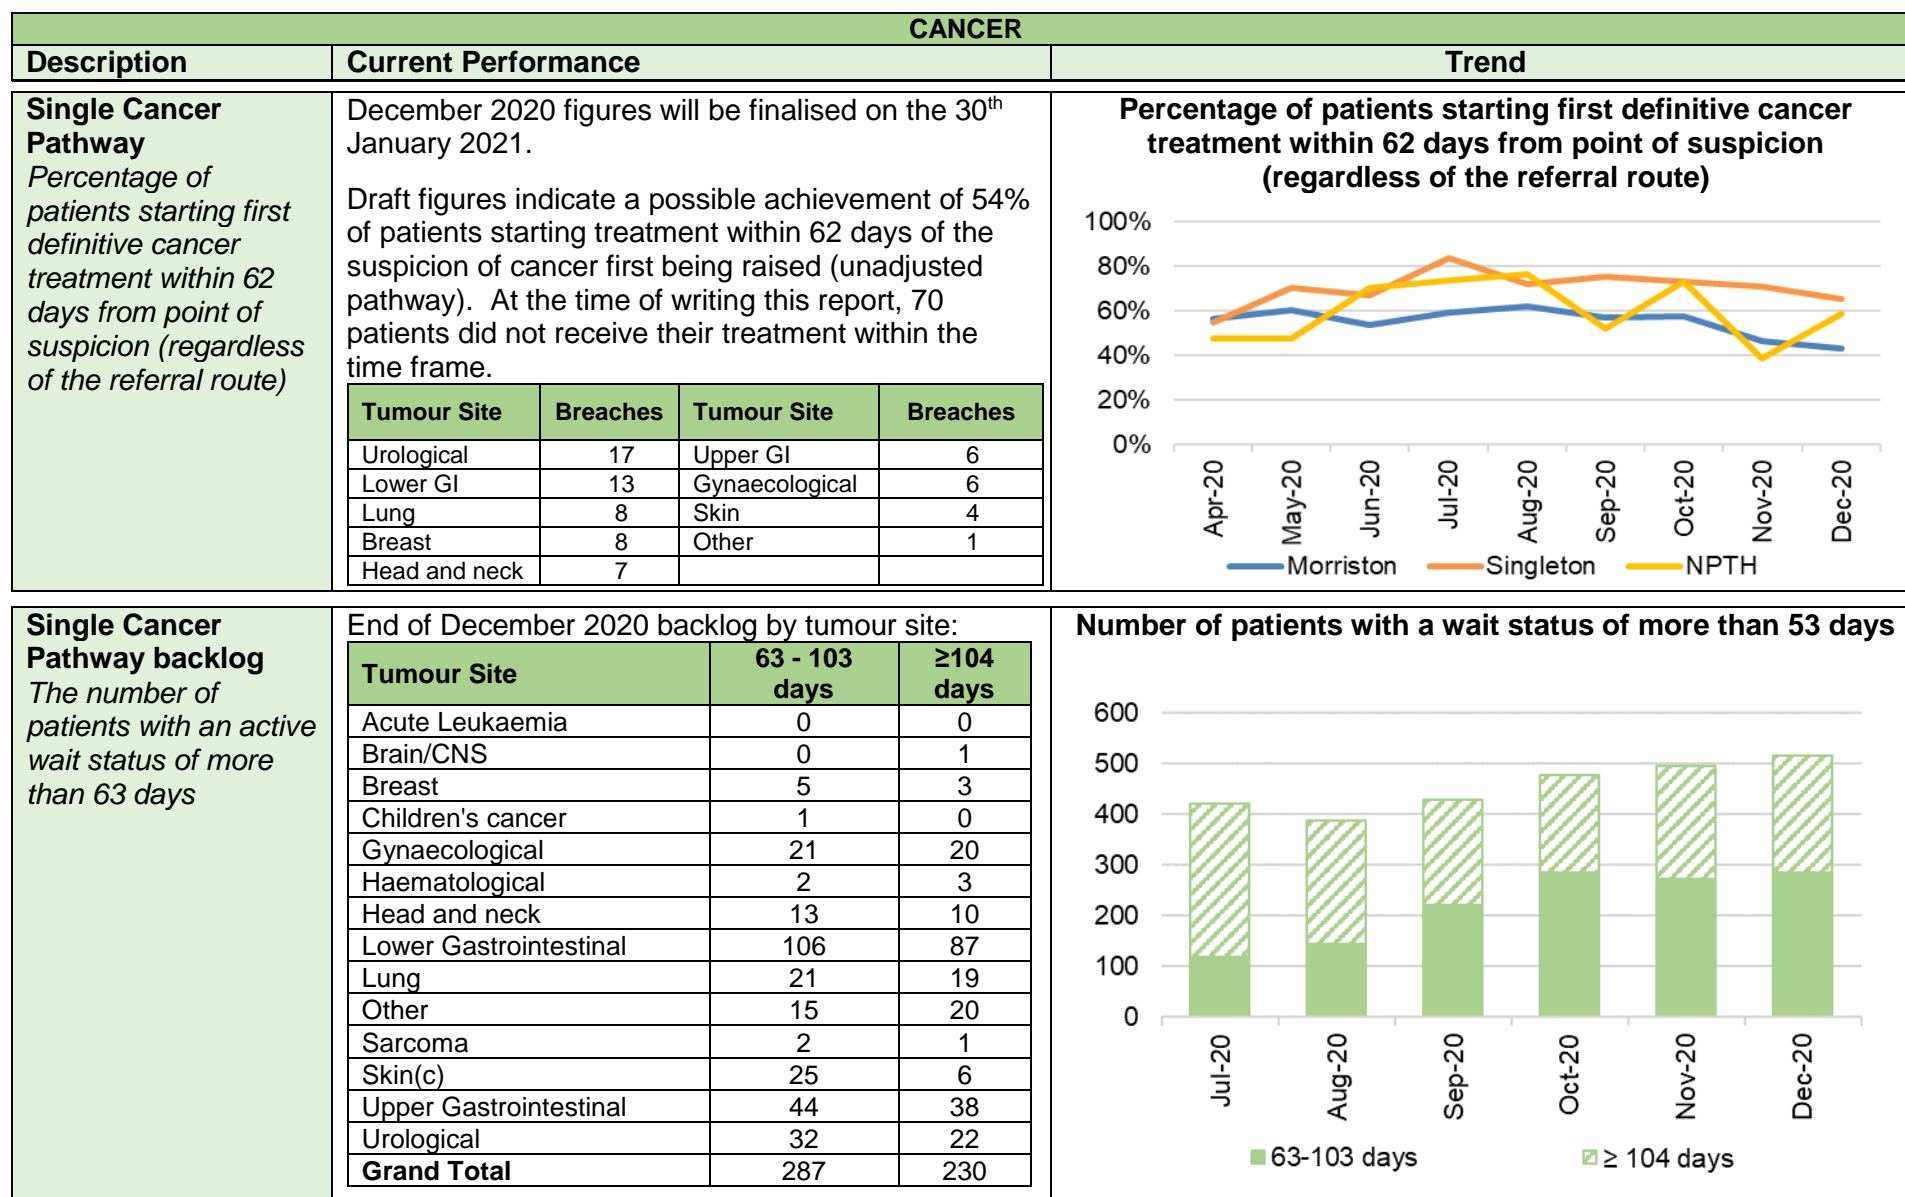

PLANNED CARE																																																																																																																																																															
Description	Current Performance																																																																																																																																																														
Outpatient waiting times 1. Number of patients waiting more than 26 weeks for an outpatient appointment (stage 1)- Health Board Total 2. Number of patients waiting more than 26 weeks for an outpatient appointment (stage 1)- Hospital Level 3. Patients waiting over 26 weeks for an outpatient appointment by specialty 4. Outpatient activity undertaken	<p>The number of patients waiting over 26 weeks for a first outpatient appointment is a challenge. December 2020, saw an in-month increase in the number of patients waiting over 26 weeks for an outpatient appointment. The number of breaches increased from 21,005 in November 2020 to 21,141 in December 2020. Orthopaedics has the largest proportion of patients waiting over 26 weeks for an outpatient appointment closely followed by ENT and Ophthalmology. The number of outpatient attendances has significantly reduced since February 2020 due to COVID19, however chart 4 shows that the number of attendances has started to increase from May 2020. Work continues to be undertaken to accurately record the split between face-to-face and virtual attendances and will be reported through a new Outpatient dashboard.</p>

PLANNED CARE																																																																																				
Description	Current Performance																																																																																			
<p>Patients waiting over 36 weeks for treatment</p> <p>1. Number of patients waiting more than 36 weeks for treatment and the number of elective patients admitted for treatment- Health Board Total</p> <p>2. Number of patients waiting more than 36 weeks for treatment and the number of elective patients admitted for treatment- Hospital level</p> <p>3. Number of elective admissions</p>	<p>The number of patients waiting longer than 36 weeks from referral to treatment has increased every month since the first wave of COVID19 in March 2020. However, December 2020 was the first in 2020 that saw an in-month reduction (from 35,387 in November 2020 to 35,031 in December 2020). 19,057 of the 35,031 were waiting over 52 weeks in December 2020. Orthopaedics/ Spinal accounted for 23% of the breaches, followed by Ophthalmology with 14%.</p> <p>The number of patients receiving a procedure (and subsequently removed from the waiting list) significantly reduced since March 2020 which is resulting in the increase in waiting times.</p>

CANCER	
Description	Current Performance
USC Cancer demand and shape of the waiting list 1. Number of Urgent Suspected Cancer (USC) referrals received 2. Source of suspicion for patients starting cancer treatment 3. Volume of USC patients by stage and adjusted wait December 2019 4. Volume of USC patients by stage and adjusted wait December 2020	<p>The number of Urgent Suspected Cancer (USC) referrals significantly reduced between March and April 2020, however there has been a constant increase every month since May 2020 and November 2020 was at pre-Covid level. The shape of the waiting list shows that there is a significant “wave” of patients that are likely to breach in the near future and there are more patients waiting at the tail end of the waiting list when compared with December 2019.</p> <p>Trend</p> <div> <div> <p>1. Number of USC referrals</p> </div> <div> <p>2. Source of suspicion for patients starting cancer treatment</p> </div> <div> <p>3. Volume of patients by stage and adjusted wait (December 2019)</p> </div> <div> <p>4. Volume of patients by stage and adjusted wait (December 2020)</p> </div> </div>

FOLLOW-UP APPOINTMENTS		
Description	Current Performance	Trend
Follow-up appointments 1. The total number of patients on the follow-up waiting list 2. The number of patients waiting 100% over target for a follow-up appointment	<p>In December 2020, the overall size of the follow-up waiting list reduced by 911 patients compared with November 2020 (from 120,874 to 119,963).</p> <p>In December 2020, there was a total of 56,210 patients waiting for a follow-up past their target date. This is an in-month reduction of 0.8% (from 56,647 in November 2020 to 56,210 in December 2020).</p> <p>Of the 56,210 delayed follow-ups in December 2020, 8,480 had appointment dates and 47,730 were still waiting for an appointment.</p> <p>In addition, 27,641 patients were waiting 100%+ over target date in December 2020. This is a 1.8% increase when compared with November 2020.</p>	<p>1. Total number of patients waiting for a follow-up</p>  <p>Number of patients waiting for follow-up (SBU HB) Profile (WG 35% reduction target)</p> <p>2. Delayed follow-ups: Number of patients waiting 100% over target</p>  <p>Number of patients waiting 100% over target date (SBU HB) Profile (WG 35% reduction target)</p>

PATIENT EXPERIENCE		
Description	Current Performance	Trend
Patient experience 1. Number of friends and family surveys completed 2. Percentage of patients/ service users who would recommend and highly recommend	<ul style="list-style-type: none"> Health Board Friends & Family patient satisfaction level in December 2020 was 77% and 584 surveys were completed: <ul style="list-style-type: none"> ➤ Neath Port Talbot Hospital (NPTH) completed 18 surveys in December 2020, with a recommended score of 67%. ➤ Singleton Hospital completed 330 surveys for December, with a recommended score of 85%. ➤ Morriston Hospital completed 152 surveys in December 2020, with a recommended score of 70%. ➤ Mental Health & Learning Disabilities completed 56 surveys for December 2020, with a recommended score of 21%. ➤ Primary & Community Care completed 84 surveys for December, with a recommended score of 62%. 	1. Number of friends and family surveys completed
		2. % of patients/ service users who would recommend and highly recommend

COMPLAINTS																																												
Description	Current Performance	Trend																																										
Patient concerns	<p>1. In December 2020, the Health Board received 83 formal complaints; this is a 5% reduction when compared with December 2019 (from 87 to 83). The monthly number of complaints received has been significantly lower since the COVID19 outbreak in March 2020 however, the numbers have gradually increased month on month since April 2020.</p> <p>In December 2020, Neath Port Talbot Hospital did not receive any formal complaints.</p>	<p>1. APPENDIX 2: Summary

The following table provides a high level overview of the Health Board's most recent performance against key quality and safety measures by quadrant component measure.

Harm quadrant- Harm from Covid itself											
Category	Measure	Target Type	Target	Internal HB Profile	Reporting period	Morrison	NPTH	Singleton	Primary & Community	MH & LD	HB Total
COVID19 related	Number of new COVID19 cases*	Local			Dec-20						11,972
	Number of staff referred for Antigen Testing*	Local			Dec-20						1,864
	Number of staff awaiting results of COVID19 test*	Local			Dec-20						99 (as at 05/01/21)
	Number of COVID19 related incidents*	Local			Dec-20						116
	Number of COVID19 related serious incidents*	Local			Dec-20						0
	Number of COVID19 related complaints*	Local			Dec-20						66
	Number of COVID19 related risks*	Local			Dec-20						10
	Number of staff self isolated (asymptomatic)*	Local			Nov-20						291
	Number of staff self isolated (symptomatic)*	Local			Nov-20						294
	% sickness*	Local			Nov-20						4.4%

* In the absence of local profiles, RAG is based on in-month movement

Harm quadrant- Harm from overwhelmed NHS and social care system											
Category	Measure	Target Type	Target	Internal HB Profile	Reporting period	Morrison	NPTH	Singleton	Primary & Community	MH & LD	HB Total
Unscheduled Care	Number of ambulance handovers over one hour*	National	0		Dec-20	499		11			510
	% of patients who spend less than 4 hours in all major and minor emergency care (i.e. A&E) facilities from arrival until admission, transfer or discharge*	National	95%		Dec-20	62.7%	99.0%				72.6%
	Number of patients who spend 12 hours or more in all hospital major and minor care facilities from arrival until admission, transfer or discharge*	National	0		Dec-20	775	1				776
Stroke	% of patients who have a direct admission to an acute stroke unit within 4 hours*	National	59.8% (UK SNAP average)		Dec-20	7%					7%
	% of patients who receive a CT scan within 1 hour*	National	54.5% (UK SNAP average)		Dec-20	23%					23%
	% of patients who are assessed by a stroke specialist consultant physician within 24 hours*	National	84.2% (UK SNAP average)		Dec-20	96%					96%
	% of thrombolysed stroke patients with a door to door needle time of less than or equal to 45 minutes*	National	12 month improvement trend		Dec-20	0%					0%
	% of patients receiving the required minutes for speech and language therapy*	National	12 month improvement trend		Dec-20	63%					63%
Healthcare acquired infections	Number of E.Coli bacteraemia cases	National	12 month reduction trend	31	Dec-20	2	0	3	7	0	12
	Number of S.aureus bacteraemia cases	National		11	Dec-20	1	1	4	3	0	9
	Number of C.difficile cases	National		10	Dec-20	5	0	1	3	0	9
	Number of Klebsiella cases	National		6	Dec-20	4	2	2	4	0	12
	Number of Aeruginosa cases	National		2	Dec-20	1	0	0	0	0	1
	Compliance with hand hygiene audits	Local	95%		Dec-20	97%	96%	96%	100%	97%	96%
Fractured Neck of Femur (#NOF)	Prompt orthogeriatric assessment- % patients receiving an assessment by a senior geriatrician within 72 hours of presentation	Local	75%		Oct-20	84.4%					84.4%
	Prompt surgery - % patients undergoing surgery by the day following presentation with hip fracture	Local	75%		Oct-20	51.0%					51.0%
	NICE compliant surgery - % of operations consistent with the recommendations of NICE CG124	Local	75%		Oct-20	72.8%					72.8%
	Prompt mobilisation after surgery - % of patients out of bed (standing or hoisted) by the day after operation	Local	75%		Oct-20	76.3%					76.3%
	Not delirious when tested- % patients (<4 on 4AT test) when tested in the week after operation	Local	75%		Oct-20	70.5%					70.5%
	Return to original residence- % patients discharged back to original residence, or in that residence at 120 day follow-up	Local	75%		Oct-20	75.4%					75.4%
	30 day mortality - crude and adjusted figures, noting ONS data only correct after around 6 months	Local	12 month improvement trend		Sep-20	6.3%					6.3%
	% of survival within 30 days of emergency admission for a hip fracture	Local	12 month improvement trend		Sep-20	88.9%					88.9%
Serious incidents	Number of Serious Incidents	Local	12 month reduction trend		Dec-20	1	0	4	0	7	12
	Of the serious incidents due for assurance, the % which were assured within the agreed timescales	Local	90%		Dec-20						4%
	Number of Never Events	Local	0		Dec-20	0	0	0	0	0	0
Pressure Ulcers	Total number of Pressure Ulcers	Local	12 month reduction trend		Nov-20	27	0	15	29	0	71
	Total number of Grade 3+ Pressure Ulcers	Local	12 month reduction trend		Nov-20	1	0	3	5	0	9
	Pressure Ulcer (Hosp) patients per 100,000 admissions	Local	12 month reduction trend		Nov-20						893
Inpatient Falls	Total number of Inpatient Falls	Local	12 month reduction trend		Dec-20	129	33	48	8	29	247
	Inpatient Falls per 1,000 beddays	Local	Between 3.0 & 5.0		Dec-20						6.91
Mortality	Universal Mortality reviews undertaken within 28 days (Stage 1 reviews)	Local	95%		Nov-20	98%	92%	100%			98%
	Stage 2 mortality reviews completed within 60 days	Local	95%		Sep-20	56%	83%	50%			55%
	Crude hospital mortality rate by Delivery Unit (74 years of age or less)	National	12 month reduction trend		Nov-20	1.75%	0.21%	0.50%			1.01%

Harm quadrant- Harm from reduction in non-Covid activity											
Category	Measure	Target Type	Target	Internal HB Profile	Reporting period	Morriston	NPTH	Singleton	Primary & Community	MH & LD	HB Total
Cancer	% patients newly diagnosed with cancer, not via the urgent route, that started definitive treatment within (up to & including) 31 days of diagnosis*	National	98%		Nov-20	78%	-	98%			91%
	% patients newly diagnosed with cancer, via the urgent suspected cancer route, that started definitive treatment within (up to & including) 62 days of receipt of referral*	National	95%		Nov-20	68%	100%	86%			79%
	Single Cancer Pathway- % of patients started treatment within 62 days (with suspensions)*	National	12 month improvement trend		Nov-20						55%
Planned Care	Number of patients waiting > 26 weeks for outpatient appointment	National	0		Dec-20	12,551	15	8,343	232		21,141
	Number of patients waiting > 36 weeks for treatment (inc. Diagnostics > 36 wks)	National	0		Dec-20	22,353	15	11,617	229		34,214
	Number of patients waiting > 8 weeks for a specified diagnostics	National	0		Dec-20	4,361		2,218			6,579
	Number of patients waiting > 14 weeks for a specified therapy	National	0		Dec-20		93		615	0	708
	Total number of patients waiting for a follow-up outpatient appointment	National	100,700		Dec-20						119,963
	Number of patients delayed by over 100% past their target date	National	17,657		Dec-20						27,641
	Number of patients delayed past their agreed target date (booked and not booked)	Local	46,019		Dec-20						56,210
	Number of Ophthalmology patients without an allocated health risk factor	Local	0		Nov-20						464
	Number of patients without a documented clinical review date	Local	0		Dec-20						90
Patient Experience/ Feedback	Number of friends and family surveys completed	Local	12 month improvement trend		Dec-20	152	18	330	84	56	584
	% of patients who would recommend and highly recommend	Local	90%	80%	Dec-20	70%	67%	85%	62%	21%	77%
	% of all-Wales surveys scoring 9 or 10 on overall satisfaction	Local	90%	80%	Dec-20	33%	67%	80%	67%	-	65%
	Number of new complaints received	Local	12 month reduction rend		Dec-20	38	0	20	18	6	83
	% of complaints that have received a final reply (under Regulation 24) or an interim reply (under Regulation 26) up to and including 30 working days from the date the complaint was first received by the organisation	National	75%	80%	Oct-20	86%	67%	64%	67%	70%	75%

* In the absence of local profiles, RAG is based on in-month movement

Harm Quadrant- Harm from wider societal actions/lockdown											
Category	Measure	Target Type	Target	Internal HB Profile	Reporting period	Morriston	NPTH	Singleton	Primary & Community	MH & LD	HB Total
Childhood immunisations	% children who received 3 doses of the hexavalent '6 in 1' vaccine by age 1	National	95%	90%	Q2 2020/21						96.5%
	% children who received MenB2 vaccine by age 1	Local	95%	90%	Q2 2020/21						96.4%
	% children who received PCV2 vaccine by age 1		95%	90%	Q2 2020/21						96.2%
	% children who received Rotavirus vaccine by age 1		95%	90%	Q2 2020/21						94.8%
	% children who received MMR1 vaccine by age 2		95%	90%	Q2 2020/21						95.4%
	% children who received PCVf3 vaccine by age 2		95%	90%	Q2 2020/21						95.5%
	% children who received MenB4 vaccine by age 2		95%	90%	Q2 2020/21						95.6%
	% children who received Hib/MenC vaccine by age 2		95%	90%	Q2 2020/21						95.4%
	% children who are up to date in schedule by age 4		95%	90%	Q2 2020/21						87.0%
	% of children who received 2 doses of the MMR vaccine by age 5	National	95%	90%	Q2 2020/21						91.7%
	% children who received 5 in 1 vaccine by age 5	Local	95%	90%	Q2 2020/21						92.8%
	% children who received MMR vaccination by age 16		95%	90%	Q2 2020/21						94.7%
	% children who received Teenage booster by age 16		90%	85%	Q2 2020/21						91.9%
	% children who received MenACWY vaccine by age 16		Improve		Q2 2020/21						92.8%
Mental Health (Adult and Children)	% of urgent assessments undertaken within 48 hours from receipt of referral (Crisis) (< 18 yrs)	Local	100%		Nov-20						100%
	% of patients waiting less than 28 days for 1st outpatient appointment (< 18 yrs)	National	80%		Nov-20						88%
	% of routine assessments undertaken within 28 days from receipt of referral (PCAMHS) (< 18 yrs)	National	80%		Nov-20						41%
	% of routine assessments undertaken within 28 days from receipt of referral (SCAMHS) (< 18 yrs)	Local	80%		Nov-20						62%
	% of mental health assessments undertaken within (up to and including) 28 days from the date of receipt of referral (> 18 yrs)	National	80%		Nov-20					98.0%	98.0%
	% of therapeutic interventions started within 28 days following assessment by LPMHSS (< 18 yrs)	National	80%		Nov-20						100%
	% of therapeutic interventions started within (up to and including) 28 days following an assessment by LPMHSS (> 18 yrs)	National	80%		Nov-20					98%	98%
	% of patients waiting less than 26 weeks to start a psychological therapy in Specialist Adult Mental Health (> 18 yrs)	National	95%		Nov-20					100.0%	100.0%
	% of patients with NDD receiving diagnostic assessment and intervention within 26 weeks (< 18 yrs)	National	80%		Nov-20						24%
	% residents in receipt of secondary mental health services (all ages) who have a valid care and treatment plan (CTP) (< 18 yrs)	National	90%		Nov-20						81%
	% residents in receipt of secondary mental health services (all ages) who have a valid care and treatment plan (CTP) (> 18 yrs)	National	90%		Nov-20					91%	91%
