MEDICAL AGENCY CAP

1. INTRODUCTION

This report is submitted to the Workforce & OD Committee to provide an update on the implementation of the Medical Locum Cap within Swansea Bay University Health Board. Welsh Government (WG) has moved to quarterly reporting and so this monthly report focuses mainly on the metrics for September 19 together with any immediate plans to attempt to improve compliance.

The next quarterly submission is due by WG in October for the quarter period July - September in line with the instructions received by WG on 2nd July 2019.

2. PROGRESS

2.1 Total Booked Hours – September 2019

- 9,548 internal and agency locum hours were booked in September 2019 compared to 12,605 in August 2019 which constitute a 25% reduction.
- The number of agency hours booked decreased this month by 40% to 3,883 compared to 6,491 in August. The vast majority to this was due to extensions of existing bookings which equate to 3,344 hours, at a value of £250,397. The balance of 539 hours is for new and ad hoc bookings at a cost of £37,482.

	Hours	% of Total	Cost
Agency			
Extensions	3,344	86.12%	£250,397
New	539	13.87%	£37,482
Total Agency	3,883	41.00%	£287,879
Total Ad Hoc Locum	5,665	59.00%	£303,390
Total	9,548	100%	£591,267

- This represents a decrease in the cost of work **booked** in September.
- NB - not all the booked hours will be worked in September as some of the bookings will extend into the following month(s)

2.2 Agency – the progress for September 2019 is reported below:

Agency Assignments

- The percentage of agency doctors paid at or below the capped rates in terms of the number of **assignments** has increased from August.

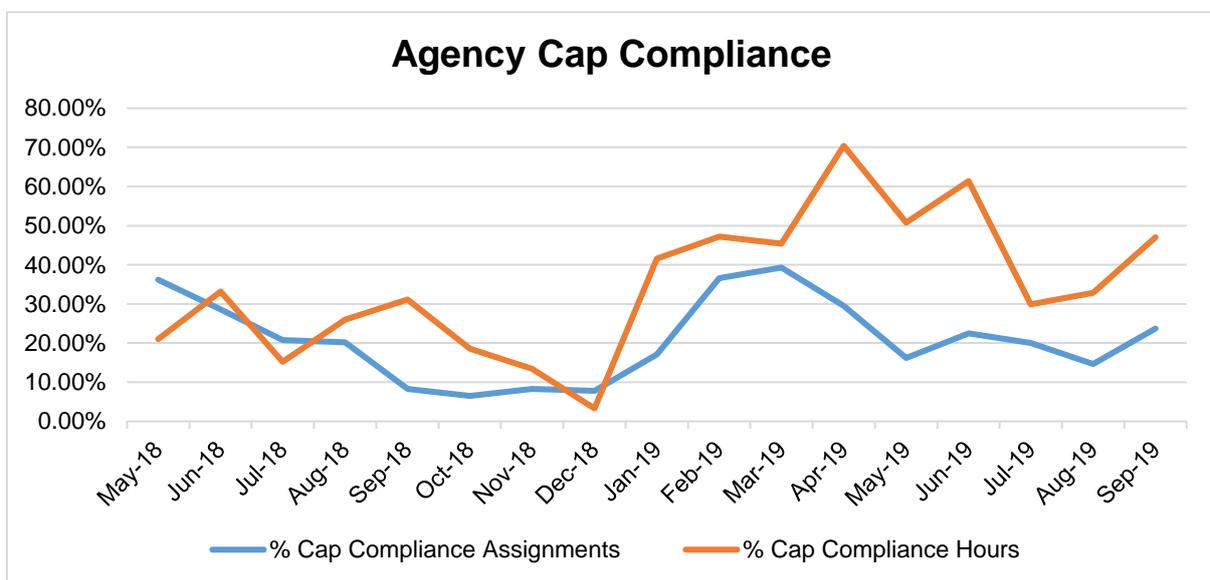

Agency Hours

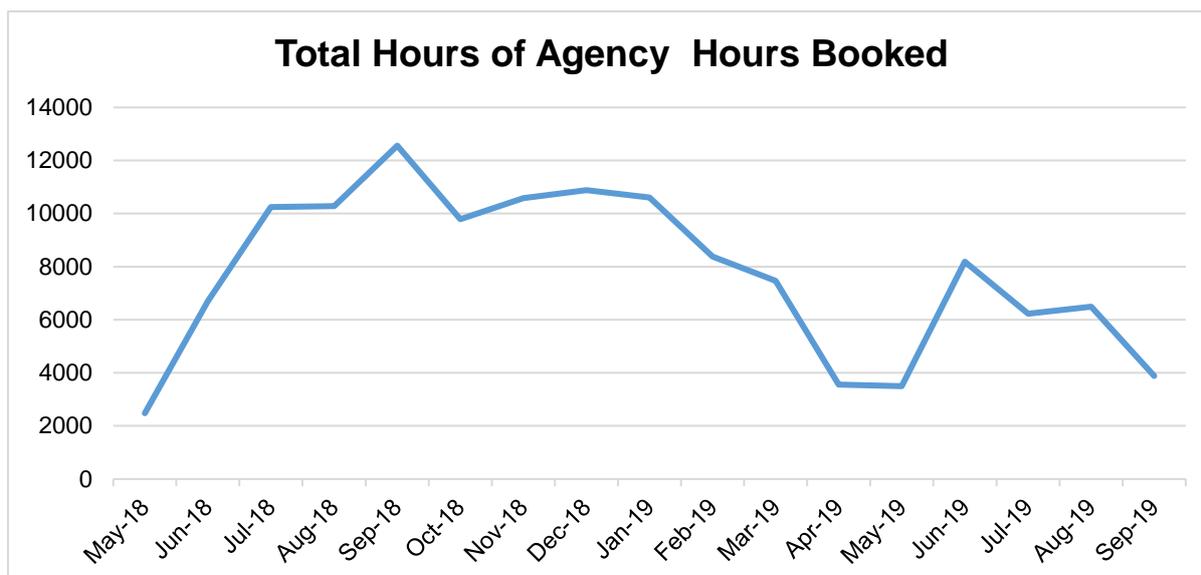

- The percentage of agency doctors paid at or below the capped rates based on **hours** increased in September to 47% compared to August figures at 32.8%.

Agency Hours

- Total agency hours booked decreased in September to 3,883 compared to August figures at 6,491.

Immediate actions

- Following the meetings between the Executive Directors and the Delivery Units to focus on their medical workforce plans Medacs and the Medical Workforce team meet each specialty by Delivery Unit monthly. Regular updates are provided via the HVO Programme structure and to the Directors directly.
- Progress to reduce the number of long term locums is summarized below:
- Outlined below are the actual conversions in post. Savings so far are circa £295K. However this is the lowest possible saving as some of the posts are Deanery doctors so we will get 50% of the salary.

Dr - initials	DU	Speciality	Grade	Annual cost Agency	Replaced on/by (date)	Annual cost HB appointment	Indicative cost saving
MK	Singleton	Obs & Gynae	SD	£167,853	April 2019	£84,240	£83,595

MS	Neath	General Medicine	ST3	£98,030	September 2019	£63,409	£34,621

In addition the following are in train.

- ***Morrison Hospital***
- **Radiology**
1 candidate interviewed and an offer has been made and accepted. A start date is anticipated for end of October/beginning November.

Radiology locums are sourced through Athona so Medacs is unable to give an agency savings cost. There are 3 or 4 off contract agency workers sourced through Athona and they are exceptionally expensive – often more than £200K pa. Once the offer is made and the current costs identified the annual savings will be close to £100K (but tbc).

- **Singleton Hospital**
- **Haematology**
1x candidate interviewed and appointed as a Locum Consultant through TRAC, with a start date of 9th September 2019. This has not resulted in the removal of any long term locums.
- **Paediatrics**
Interviews took place on the 9th October with 1x Medacs candidate, 5x BDI candidates and 1x TRAC/NHS jobs candidate. Offers made to 1x BDI candidate and a provisional offer made to 1x Medacs candidate. The provisional offer to the Medacs candidate is awaiting financial sign off on the 14th October 2019. Currently 1x long-term locum in the service so if we can appoint with a substantive doctor this will see an annual saving of £99,863 on exit of the agency locum.
- **Neonates**
Appointed 2x Specialty Doctors via TRAC/NHS jobs of which one doctors requires a certificate of sponsorship but is hoping to commence beginning to mid-November having already relocated to the Swansea area and the second doctor has a commencement date of the 28th October 2019. There are no long term locums in this specialty
- **Neath Port Talbot Hospital**
- **General Medicine**
- 4x candidates: Appointed 3x Medacs plus 1x TRAC/NHS Jobs. One doctor commenced 23rd September 2019 with 2x commencing mid-November and the last doctor commencing January 2020. This will allow the exit of two long term locums with the potential to save circa £69,300.
- There is a long-term Medacs Locum Specialty Doctor currently filling an ANP gap. Meeting to be arranged to discuss options to move funding to a Medical vacancy instead of ANP due to successful recruitment over the last few months.
- Kendall Bluck recently met with the Executive Directors and senior representatives of the ED Dept at Morriston. Further work is taking place by November with the view to then implement the recommendations. Their work around locum opportunities has been absorbed into the removal of long standing locums and the work underpinning this is detailed above. There are four rotas that require addressing and meetings have been scheduled for November.
- The Medacs contract has been extended to November 2020 in order to participate in the All Wales work exploring Master Vend –v- Neutral Vend. It should be noted that the All Wales work appears to have stalled and discussions with the Head of Procurement have commenced in order to protect the Health Board’s position.
- The Locum on Duty project began its roll out on the 1st May. This will digitalize the booking of all locums, have a link to pay and introduce an internal medical Bank. It

is anticipated that the project will take a minimum of six months to complete and will provide a more comprehensive suite of intelligence in real time to help try to drive costs down and current locums are being contacted to request they agree to register with the Medical Locum Bank.

WELSH GOVERNMENT QUARTERLY SUBMISSION

Welsh Government have requested the Health Board to report quarterly and therefore the submission will be included in the October report.

3. GOVERNANCE AND RISK ISSUES

The main risk with this work relates to the overall challenging recruitment market and the overall supply of doctors.

4. FINANCIAL IMPLICATIONS

The financial details are set out in section 2 and in the table below.
