Homecare Oral SACT Pathway

- **Cycle 1** (Please see Appendix A for list of regimens this pathway applies to)

Patient reviewed in clinic & Treatment plan confirmed (DTT)

- Informed Consent & patient priority as per treatment intent
- Allocate & Annotate – start date of SACT to be 7 days in future**
- Confirm treatment
- Authorise treatment if bloods available
- Ensure blood results available no more than 14 day(s) before starting SACT (book test & give blood form in clinic if not done already)
- Inform pharmacy of new oral patient starting treatment:
SBU.PharmacyOncologyHomecare@wales.nhs.uk

Clinical Check Commenced

- *Pharmacy Medical Secretary informed and books patient into oral SACT counselling clinic
- *Patient entered onto oral SACT database
- *Homecare registration form completed

Pre Treatment Counselling

- *Patient counselled in oral SACT counselling clinic (and confirmation patient has received correct Homecare service information sheet)
- *Patient informed date treatment will be ready to commence
- *Pharmacy secretary to inform Consultant secretary of correct start date
- *Consultant secretary to book follow up according to regimen, with the exception of Prostate cancer patients, where the Pharmacy Secretary will make the initial first review (see Appendix B)

Patient collects medication from Pharmacy on agreed date

- Opportunity for patient to ask any further questions

Treatment delivered by Homecare

Consultant Team

Pharmacy

Patient

Homecare

**Contact pharmacy directly on 01792 285443 for any urgent patients

Main Changes

- Clinician to amend start date on ChemoCare to 7 days after Decision to Treat/clinic date.
- Clinician to inform patient that pharmacy will book them into a clinic for counselling and arrange collection/delivery of medications.
- Clinician's secretary NOT to book next review date until start date confirmed by pharmacy team.
- 'Homecare patient information' (appendix C and D or E) letter to be handed to patient at the end of clinic appointment:
 - Homecare provider for each regimen found in appendix A
 - Pharmacy staff will confirm with patient they have received a copy during pre-treatment counselling and provide the patient with one if they haven't.
- The generic e-mail contained in the pathway **must** be used to inform pharmacy of **ALL** new oral patients (individual pharmacists may also continue to be copied in). (However, it is acceptable for the clinician to inform the pharmacist directly during the clinic if there is a pharmacist present).
- Patient will not start oral SACT treatment on same day as clinic appointment unless extenuating circumstances – please phone pharmacy if this is the case.

Cycle 2 onwards

- Patients are to be reviewed within 48 hours of the date their next script is due. Please see appendix B for further details.

Homecare Oral SACT Pathway – Lung patients only

Patient reviewed in clinic & Treatment plan confirmed (DTT)

- Informed Consent & patient priority as per treatment intent
- Allocate & Annotate – start date of SACT to be 7 days in future**
- Confirm treatment
- Authorise treatment if bloods available
- Ensure blood results available no more than 14 day(s) before starting SACT (book test & give blood form in clinic if not done already)
- Inform pharmacy and lung pharmacist of new oral patient starting treatment:
SBU.PharmacyOncologyHomecare@wales.nhs.uk
sbu.lungcancerpharmacist@wales.nhs.uk – please give patient name, NHS no, treatment and phone number to call when ready to collect.
- Lung team to liaise with pharmacy and inform patient date of collection of medication for cycle 1.

Clinical Check Commenced

- Treatment to be dispensed from Singleton Hospital Pharmacy for first 2-3 cycles so any dose reductions can be actioned quicker.
- Homecare registration form completed by Lung Pharmacist (once patient reviewed in telephone clinic after cycle 2-3.)

CNS to liaise with pharmacy for treatment pick-up/start date and contact patient (in absence of Lung Pharmacist)

Patient collects medication from Pharmacy on agreed date

- Opportunity for patient to ask any further questions

- Medication can be dispensed via Homecare after cycle 2/3.

Appendix A – Homecare provider list

Homecare oral SACT Pathway

Patients receiving the following treatment will be considered for Homecare deliveries of oral SACT:

Drugs	Cancer	Homecare provider
Pazopanib	Renal / Sarcoma	Sciensus
Cabozantinib	Renal	Sciensus
Axitinib / *Avelumab	Renal	Sciensus
Lenvatanib / *Pembrolizumab	Renal	Sciensus
Tivozanib	Renal	Sciensus
Sunitinib	Renal	Sciensus
Lenvatanib / Everolimus	Renal	Sciensus
Abiraterone tablets	Prostate	Alcura
Apalutamide tablets	Prostate	Health Net
Darolutamide tablets	Prostate	Alcura
Enzalutamide	Prostate	Alcura
Encorafenib	Melanoma	Sciensus
Binimetinib	Melanoma	Sciensus
Dabrafenib	Lung & Melanoma	Sciensus
Trametinib	Lung & Melanoma	Sciensus
Afatinib	Lung	Alcura
Alectinib	Lung	Alcura
Crizotinib	Lung	Alcura
Entrectinib	Lung	Alcura
Gefitinib	Lung	Alcura
Lorlatinib	Lung	Alcura
Osimertinib	Lung	Alcura
Sotorasib	Lung	Alcura
Tepotinib	Lung	Alcura
Olaparib	Gynae	Alcura
Niraparib	Gynae	Health Net
Rucaparib	Gynae	Sciensus

*If you have a new patient starting on oral cancer treatment, either in combination with IV therapy or on its own, please inform:

SBU.PharmacyOncologyHomecare@wales.nhs.uk

Sotorasib	Lung	Bloods required 2 weeks after starting.	8 weekly (if appropriate)	
Tepotinib	Lung	Face to face at 4 weeks then 4 weekly for first 6 months		

Appendix C

Oncology Homecare Service (Alcura) for Oral Cancer Medications

About the service

We use a company, called Alcura, to deliver your medicines to your home. A member of staff from the Pharmacy department will contact you following your clinic appointment to confirm you are happy to be registered to the service, and begin processing the home delivery. During the phone contact with Pharmacy, you will be advised when to collect a 14-day supply from Pharmacy, whilst the home delivery is being processed.

Alcura will deliver medication to your home on a routine basis, based on the intervals of your prescription. We try to maintain the 14-day supply at home and arrange a delivery before you are expected to run out.

What to expect

- You are required to have bloods before each clinic appointment/prescription unless directed otherwise.
- Once you have been reviewed in clinic, we send your prescription to Alcura.
- Alcura will call you to arrange a delivery day and time, 3 days before the delivery is due.
- Someone must be home to accept the delivery.
- If you need to change the delivery, call Alcura. You can leave your name, NHS number and telephone number on their answerphone. They will respond to you within 24 hours.

Blood tests

You will need to have bloods done before your next prescription is due. You will need to book your own blood tests (unless advised otherwise) and will be informed when the blood test needs to be done. If you are unable to organise a blood test, please call pharmacy. Blood forms will either be given to you during your clinic appointment or sent in the post by the doctor's secretary. If you do not receive the blood form 1 week before your blood test is due, please call the secretary.

Useful numbers

- Blood test booking

(Please remember to book your bloods in advance to ensure you get an appointment.)

Swansea Bay blood test booking number: 01792 601807

To book online, please web search for “SBUHB BLOOD TESTS” or use the following link: <https://sbuhb.nhs.wales/hospitals/a-z-hospital-services/blood-tests/>

OR scan the QR code which will direct you to Swansea Bay UHB website:

Hywel Dda blood test booking numbers: 0300 303 9642 (PPH) or 07790 978 684 (Glangwili)

To book online, please use the following link:

<https://hduhb.nhs.wales/healthcare/services-and-teams/blood-tests/>

- Cancer hotline / triage: 01792 618829 (Swansea Bay) or 0300 304 7430 (Hywel Dda). Call if you are acutely unwell relating to your cancer or the treatment you have received.
- Singleton Hospital Pharmacy: 01792 285443
Call to discuss your prescription, if unable to collect supply from Singleton Pharmacy on the correct date, or any other concerns about your prescription.
- Alcura: 0800 980 0686
Call to discuss delivery day and time.
Option 1: to organise a delivery.
Option 3: to check timings of a delivery.

You must attend your clinic appointments or your medicines homecare service may stop.

Appendix D

Oncology Homecare Service (Sciensus) for Oral Cancer Medications

About the service

We use a company, called Sciensus, to deliver your medicines to your home. A member of staff from the Pharmacy department will contact you following your clinic appointment to confirm you are happy to be registered to the service, and begin processing the home delivery. During the phone contact with Pharmacy, you will be advised when to collect a 14-day supply from Pharmacy, whilst the home delivery is being processed.

Sciensus will deliver medication to your home on a routine basis, based on the intervals of your prescription. We try to maintain the 14-day supply at home and arrange a delivery before you are expected to run out.

What to expect

- You are required to have bloods before each clinic appointment/prescription unless directed otherwise.
- Once you have been reviewed in clinic, we send your prescription to Sciensus.
- Sciensus will call you to arrange a delivery day and time a few days before the delivery is due. Alternatively, you can arrange delivery through their phone app (see below).
- Someone must be home to accept the delivery.
- If you need to change the delivery, you can call Sciensus or contact them through their phone app.

Blood tests

You will need to have bloods done before your next prescription is due. You will need to book your own blood tests (unless advised otherwise) and will be informed when the blood test needs to be done. If you are unable to organise a blood test, please call pharmacy. Blood forms will either be given to you during your clinic appointment or sent in the post by the doctors' secretary. If you do not receive the blood form 1 week before your blood test is due, please call the doctors' secretary.

Phone app

Sciensus will provide an information pack with the first delivery of medications, which has information about their mobile phone app. The app enables you to take control of your deliveries, by updating your current stock levels and selecting convenient delivery dates. You can also track your deliveries. The app has a live chat feature, where you can directly contact Sciensus.

Useful numbers

Call to discuss delivery day and time. Alternatively, use the live chat on their phone app.

You must attend your clinic appointments or your medicines homecare service may stop.

Appendix E

Oncology Homecare Service (Health Net) for Oral Cancer Medications

Your medicines homecare service will be provided by **Health Net Homecare**.

They have 2 services for patients:

- **Delivery of medication** - first 2 weeks supplied by local hospital, then monthly supplies by Health Net (to allow for a 2 week “buffer” stock).
- **Blood and blood pressure monitoring**
 - Bloods - Weekly for 4 weeks of treatment then monthly (unless bloods out of range, in which case done more frequently)
 - Blood pressure – weekly for 8 weeks then monthly
