BOARD ASSURANCE FRAMEWORK (BAF)

1. INTRODUCTION

- 1.1 The purpose of this report is to request that the Board review and discuss the Health Board's updated Board Assurance Framework (BAF) document.

2. BACKGROUND AND CONTEXT

- 2.1 The process of gaining assurance is fundamentally about taking all of the relevant evidence together and arriving at informed conclusions. With this in mind, the BAF is intended to enable the Board to:
- Establish the key controls in place which contribute to the Health Board achieving its strategic objectives.
 - Identify sources of assurance regarding the adequacy, suitability, completeness and operation of those controls.
 - Receive assurance that, where gaps in control or assurance are identified or the need for improvement has been highlighted, appropriate action is being taken.
 - Provide an overall assessment of assurance regarding the adequacy and operation of controls in place, relevant to each strategic objective.
- 2.2 In summary, the BAF provides a framework for identifying which of the Health Board's objectives are at risk because of inadequacies in controls or insufficient assurance about them. At the same time it provides structured assurance about gaps which are being managed effectively, and objectives that are being delivered.
- 2.3 The most objective assurance comes from independent external review sources. These are supplemented by internal sources such as clinical audit, internal management, performance management and self-assessment reports.

3. STATUS UPDATE

- 3.1 The Board Assurance Framework was last presented to the Health Board at its meeting in September 2022. Since that time, a further section has been added relating to Estates Infrastructure.
- 3.2 Responsibility for populating the content of the BAF, including an assessment of trend/direction of travel and level of assurance, rests with each Executive Director and his/her team. As such, relevant extracts from the document were circulated to the Executive Directors and nominated leads on 1st February 2023 with a request that they be reviewed and updated.
- 3.3 The current version of the BAF is set out in **Appendix 1**. All updates are highlighted in green text. Actions marked as 'Complete' by the executive leads and their teams will now be assessed for inclusion as either a key control or form of assurance.

- 3.4 The Director of Corporate Governance and Head of Compliance have met with representatives of Audit Wales and NWSSP Audit & Assurance in order to discuss the status of the BAF. Positive feedback was received in respect of the progress which has been made in developing the BAF to date. Work is currently ongoing to further enhance the BAF following these meetings, and to ensure its alignment with the Health Board Strategic Objectives contained within the Recovery & Sustainability Plan (IMTP 23/26).
- 3.5 In order to further assist Executive Leads and their Teams, the Head of Compliance is working with the Head of Corporate Governance to develop mechanisms to update the 'Forms of Assurance' within the BAF (particularly at Levels 2 and 3) on their behalf.

4. FINANCIAL IMPLICATIONS

- 4.1 There are no direct financial implications arising from the recommendations in this report.

5. RECOMMENDATIONS

- 5.1 Members are asked to:
- **NOTE** and **DISCUSS** the Board Assurance Framework (BAF), acknowledging that it is an iterative document which will be continually updated; and
 - **AGREE** any specific areas where further assurance is required, in order that these may be addressed with the relevant Lead Executive(s).

Quality, Safety and Patient Experience		
Ensuring that the Board and its Sub-Committees make fully informed decisions is dependent on the quality and accuracy of the information presented and considered by those making the decisions. Informed decisions are most likely to impact favourably on the quality, safety and experience of patients and staff.		
Financial Implications		
There are no direct financial implications arising from this paper		
Legal Implications (including equality and diversity assessment)		
Ensuring that the organisation has an effective and evolving Board Assurance Framework (BAF) that supports the Board in delivering its plans and achieving its objectives, is an essential component of the Health Board's governance arrangements going forward.		
Staffing Implications		
The further development and embedding of the BAF will require a significant amount of work on the part of Executive colleagues and their teams.		
Long Term Implications (including the impact of the Well-being of Future Generations (Wales) Act 2015)		
The development of the BAF will assist the Board in assessing risk and gathering assurance across all corporate objectives, which span the five ways of working, and the wellbeing goals identified in the Act.
