I refer to your Freedom of Information Act Request acknowledged by ourselves on 8th April 2020. Your request sought information relating to outsourcing spend.

Clinical, Surgical and Diagnostic services come under the umbrella of an All Wales Framework for Local Health Boards and NHS Trusts in Wales, which the NHS Wales Shared Services Partnership (NWSSP) seeks to establish on their behalf. Details of companies within this framework can be found on the Sell2Wales website:

https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=AUG263259

Annually, as part of the Integrated Medium Term planning process, our Service Delivery Units are required to develop Demand and Capacity Referral to Treatment (RTT) Delivery Plans which identify additional internal and external solutions, above core capacity, to make services sustainable and reduce any backlog of patients waiting, where relevant.

Whilst consideration is made for the impact of unscheduled care pressures on our scheduled care systems, periods of exceptional pressure care can impact on the balance of the demand and capacity plans for scheduled care. This position is under constant review and where necessary (and possible) corrective action is taken to recover lost capacity. This can involve the use of outside providers as part of the recovery plans.

Therefore plans are scrutinised and internal solutions utilising our own workforce and facilities are maximised wherever possible before decisions to commission external capacity is approved.
