I refer to your Freedom of Information Act Request acknowledged by ourselves on 30th March 2020. Your request sought information relating to osteoporosis medication.

Please note that the information we have provided covers the period 01.01.20 – 31.03.20. We are only able to provide figures for osteoporosis medication dispensed within secondary care settings (e.g. hospitals).

1. In the past 3 months, how many over 50s females have you treated with a drug [e.g. biphosphonate, denosumab, raloxifene or teriparatide] for osteoporosis?

135 individual items were dispensed in this period – please note that stock item issues to wards are included in this figure, therefore the true patient numbers may be higher.

2. In the past 3 months how many patients were treated with:

Forsteo [teriparatide] - 15

Movymia [teriparatide] - 0

Terrosa [teriparatide] - 0

3. If possible; of these patients how many were new to the treatment, ie had not previously been treated with teriparatide?
